1	Ms. Petrie made my child not want to be in band or orchestra again. My child was in her orchestra class and she would sit and her desk and play on her phone the entire time. Multiple other scholars confirmed this. She would basically try to have the kids teach themselves. Mr. Jensen stepped in for that class and left my child sitting alone on the curb in tears. Neither my child or my family ever received an acknowledgment or apology from him. Completely unacceptable.	5/5/2022 7:31 PM

4	We are currently dissatisfied with our child's current teacher. Our child's special plan is not being followed. Their is no accountability. Grades are not avaiable on the infinite campus for review. Teacher does not motive, not a fun learning environment. We are hoping next year is better.	4/27/2022 11:02 AM

call me to pick her up this year because a boy was bothering her and no adults helped.

6	We have been attending leman for the past 4 years and have loved it up until this year. The dress code changes are ridiculous and nobody can give me clear reason why zip up hoodies are allowed but not pull over. I am not pleased with the taking of recess from kids as a punishment. They need that time and there should be Different consequences. I also don't love the whole class punishment for the kiddos who aren't doing anything wrong.	4/27/2022 8:58 AM
7	While there are many things I appreciate about Lemman Academy (including Charlotte Mason philosophy, friendly caring and dedicated staff's endeavor to build into scholars and communicate well with parents), I have encountered some difficulties as well: -My child is intellectually gifted and while helped some (once a week GT class with teacher Ashley Faye whom is creative, helpful, insightful and committed and whom seeks to encourage the whole child vs just intellect; some additional same level projects offered [yet not advancing levels]) my child is GT every day and is not allowed access to more advanced opportunities (i.e. while it helps Lemman teaches a year ahead in math, they only have up to 9th grade curriculum). -On multiple occasions from 4th grade on, my child has had access to inappropriate books from teachers shelves and I wonder if the upcoming school library will have some of the same (more mature content including sexual innuendo, intense violence, cussing, filler/"twaddle" to quote Charlotte Mason).	4/22/2022 11:45 PM
8	there seems to be some inconsistency in how the girls are treated or disciplined vs. the boys	4/22/2022 8:56 PM
9	I feel isolated and as though if I don't share the political views of the school then I don't belong - the emails asking for us to give support for anti-masking and going against the district made me wildly uncomfortable and wished politics wouldn't be included in communications. My daughter has also had bullying experiences with her teacher. Last, the amount of homework is uncalled for and was no what we signed up for. In the tours the principal touted not having a lot of homework but scholars are spending 45 minutes to 1.5 hours a day at the lower grade levels on homework. Ridiculous	4/22/2022 4:45 PM

12	Overall, we are very satisfied, especially with the elementary school. We are somewhat satisfied with the middle school but feel strongly that middle school administration and some teachers approach the scholars with an attitude of always looking for what they are doing wrong, not recognizing accomplishments and not treating middle school scholars as their own people. I feel there is so much more opportunity for connection between scholars, teachers and administration in middle school. It feels as though pre-judgements are made by teachers/administration and scholars are treated as though those judgements are reality. This is so unfortunate as we spend so much time teaching our children NOT to do this in their own lives, yet that is being modeled in their own school. We had to take the approach to focus on surviving middle school rather than thriving and that is very disappointing. While middle schoolers can be challenging, they are also pretty awesome if they are given that chance in a loving environment and respected for who they are as individuals (shared as someone who has worked with this age) One thing we have heard said a lot is that the school is Lemman Academy of Excellence and not Perfection, but in middle school, scholars feel they are expected to be perfect and meet the specific image of what particular teachers and administrators view as perfect rather than recognizing their own individual excellence and accomplishments and causing undue stress when that isn't met. As a parent who has talked to many scholars in the middle school, they do not feel loved or supported by the middle school administration specifically. I know there is much opportunity to do better with middle school.	4/18/2022 12:10 PM
13	I like some of the education (not too much tech in classroom, memorization, etc) I don't love the Math program or rigidness of coursework across the whole grade level). I don't like a lot of the required reading book choices and I don't like the politicalization of the school.	4/18/2022 12:06 PM
14	First school experience in 6 years to have an issue with a specific teacher "labeling" my child.	4/18/2022 11:32 AM
15	Still trying to figure out the culture as it is not as clear as it needs to be. It seems difficult for new students to enter and would benefit from having a more welcoming approach to new students. Plus it seems to be more turnover than I would expect given the words given as to what Lemman is about. saying they have art projects to purchase but it is the same one that was done early in the year.

16	Not timely on grading and no adherence to 504 plan	4/15/2022 9:42 PM
17	I wish the teachers wouldn't punish the kids with taking away recess time.	4/15/2022 8:46 AM
18	It seems like over the years Lemman has become more and more of a military style school. It seems there is more and more power being used to control kids and less and less heart involved.	4/15/2022 3:15 AM
19	Our experience with the elementary has been very good. However, the experience at the middle school level has been upsetting. The teacher's influence seems to be positive, but the over all atmosphere in 7th/8th is not healthy. Damage to the school, urine and fecal matter on walls, the general disrespect of students for authority has been very upsetting to our scholar to the point they very much does not like nor want to attend the school. Our scholar has been pestered, had their personal items hidden or out right taken. It's incredibly frustrating - we feel very helpless and without recourse. The times we have helped with large scale events has also shown this level of disrespect and rudeness to us as volunteers. Our scholar has also suffered in math with multiple teachers. We have not had a good first year in the middle school and we are not alone in this sentiment.	4/14/2022 11:22 AM
20	There are things about Lemman that we like, but it's been a tough year. We were very discouraged by the school's response to COVID, and your refusal to follow health department mandates while sending out multiple emails making it appear that you were following them. Each of these emails gave some families false hope that their kids would be safer, but nothing ever changed. One of our kids' teachers was new to the school this year and did not challenge our child, did not take teaching very seriously, and did not consistently communicate expectations. However, we were very happy with our other child's two teachers for the school year.	4/14/2022 10:08 AM
21	I would love better communication with parents and better collaboration with parents. I feel sometimes it's parents against teachers when we should be working together.	4/13/2022 4:58 PM
22	We would strongly prefer that students be progressed by achievement level, either within their grade or outside of grade level constraints. We were led to believe that groups would be formed within grade levels for different levels of achievement but that has not been the case this year which is upsetting.	4/13/2022 4:19 PM
23	This is our third year at Lemman and have noticed the direction the school is heading is not what we would like our child to be apart of, will give it one more year if not we will remove our child.	4/13/2022 1:01 PM
24	A friend had recommended Lemman Academy due to the small to medium class sizes. However, our experience has been the opposite with large class sizes and the teacher feeling overwhelmed. Communication has been lacking due to large class sizes and there's no personable feel from the teacher with getting to really know the students.	4/13/2022 11:21 AM
25	Bergmeier is a stellar teacher that has helped both my sons find success. I also appreciate knowing what to expect each week. Her weekly emails about what is to come in class are valuable to supporting our scholar and partnering with our teacher. Jepkes has been a difficult adjustment for my 5th-grade son. There have been more tears and frustration this year than any other year. I understand that my scholar plays a role in the classroom, however, expectations and communication aren't always clear.	4/13/2022 11:00 AM
26	I have not been satisfied with mid Uyechi or miss dinsmoore.	4/13/2022 10:55 AM
27	The only suggestion I would make is the cafeteria selection and options need improvement. I would more opt to pay for school lunches if there was a fresh salad bar and hot lunch.	4/13/2022 10:42 AM
28	I have been very satisfied with Lemman up until this year. I have been extremely dissatisfied with three issues this year. (1) The first being that my son is NOT being challenged in math. He is literally repeating the exact math he completed last year. Mrs. Uyechi does not do any of the math recommendations/projects given to her by Mrs. Faye because per Mrs. Uyechi (in her own words during conferences), "Kevin doesn't get graded on those gifted math assignments so I don't have him do them. They are a waste of my time." I offered suggestions on what she could be doing for my son, but none came to fruition. Uyechi is unhappy and you can see it, hear it, when speaking with her. I don't think teaching math is the best subject for her. (2) The second issue is that in Mrs. Bradley's ELA class, her classroom management	4/13/2022 9:39 AM

## 2021-2022 Parent/Guardian Survey: Lemman Academy Parker

style is 'all or nothing'. There are 3-4 trouble-making scholars in her class. Everyone knows who they are. Instead of Mrs. Bradley dealing with just those scholars, punishing their negative behavior, she will punish the whole class. Examples: assigning 20 pages of reading homework in one night; pulling all the scholars into the hallway 2-3 times in one class period to lecture the whole class...one would think she would reward the positive behaviors and punish the negative. (3) And the third issue, is the bullying that seems to happen in middle school. The bullying appears to be an on-going situation at Lemman that doesn't get addressed (as my daughter was also bullied in middle school when she was there.) And it is the bullying that upsets me the most. For the first time in my son's academic career, he is NOT happy being in school. He is NOT enjoying school and he has asked if he could just skip 8th grade and go straight to LuHi. Academically, he probably could. However, I told him, 'No', he has to complete 8th grade. Kevin has been at Lemman since 4th grade. He has been a 'high honor roll' student every single quarter. He has never been a problem scholar, nor has he ever gotten into trouble with his teachers. On the contrary, all his teachers have shared that he is a delight in class, a hard worker, polite, etc. It frustrates me to no end that my son no longer enjoys attending Lemman. He is tired of the bullying, he is tired of extra work due to other's actions and he just wants to be done. This is one of the reasons I exempted Kevin from the CMAS. He has taken this test so many times, I know where he stands academically and the fact that he isn't enjoying school led to me to allow him to stay home. To sleep in, relax and not be in an environment in which he doesn't want to be in.

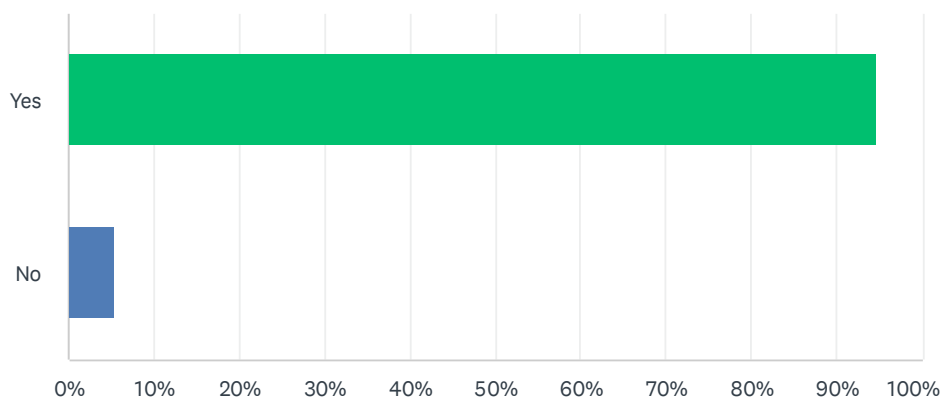

---

29	I was more disappointed in the teachers approach to problem solving this year then in past- it was a whole group punishment which I don't agree with	4/13/2022 8:56 AM

7	They did their best to return to 'normal' as soon as possible after COVID...i.e. get rid of masks, remote learning, social distancing, cohorting, etc. I appreciate a school that lets kids be kids and doesn't focus on fear tactics. Those kinds of schools are few and far between right now. I particularly like their Language Arts curriculum (IEW) and feel that it has taken my kids from struggling in the area of writing, to excelling. Saxon math may not be for everyone, but it has worked well for my kids. It is straightforward without a bunch of extra stuff to distract and confuse them. I appreciate that my son is taking a logic class in 8th grade.	4/30/2022 9:02 AM

22	I love the classical curriculum of Saxon math, Spanish, Latin, Shirley English, and the fact that our school DOES NOT TEACH sex education, CRT, equality and inclusion. I prefer Leman continue to teach morals & virtues, and that character is what matters, not the color of your skin.	4/27/2022 5:42 PM
23	The success of the scholars is the main priority. The teachers are equipped with the time and tools to keep them motivated to teach, which engages the scholars.	4/27/2022 4:55 PM
24	The culture and atmosphere is positive and based on academics. The leadership is amazing- Dr. Edwards and team are not afraid to make the hard decisions, and they exhibit such caring for the students AND staff. They are approachable with the parents and students. The teaching staff is highly qualified, and cares deeply for their students, and stick to teaching academics without indoctrinating students.	4/27/2022 3:21 PM
25	Many reasons. My kids are pushed much harder academically at Leman than at their previous schools. Leman's insistence on in-person learning during the pandemic was fantastic, and I believe my kids benefited tremendously from it. I love that Leman teaches the classical virtues, especially since we live in a day and age when those virtues seem to be ignored or even openly discouraged. My kids teachers have all been great.	4/27/2022 3:20 PM

91	The caring staff and the classical content being taught.	4/16/2022 3:51 AM
92	We like many aspects of the curriculum	4/15/2022 8:46 AM
93	I think the younger grades are done well, but as the kids age the school decreases in effectiveness, culture, and love.	4/15/2022 3:15 AM
94	Highly value the classical education, rigorous curriculum and great staff.	4/14/2022 8:43 PM
95	True rigorous education; Charlotte Mason classical model is effective in preparing students for further education and development; incredibly talented and qualified faculty	4/14/2022 6:06 PM
96	Caring staff, great curriculum, insulated from more controversial teaching like gender identity in health topics and CRT, values based education, personal accountability in disciplining scholar behavior	4/14/2022 2:32 PM
97	We like that they promote values and virtues. The classic education and also the encouragement to make the honor roll.	4/14/2022 1:10 PM
98	Absolutely love our school. I feel like we have a private school education that's aligned with my families values. I absolutely would Recommend Leman.	4/14/2022 11:45 AM
99	On the elementary end, definitely. As a MS, we're not happy with our experience and are hoping this is growing pains and next year will be better. Please also note, we have fantastic communication with the elementary teacher, but very little to no response outside our scholars homeroom teacher. The rest have not been overly friendly or helpful.	4/14/2022 11:22 AM
100	Quality of academics, culture of school	4/13/2022 10:30 PM
101	Core values, classical education, safety, teacher/parent connection and communication	4/13/2022 10:13 PM

104	Strong respectful leadership, curriculum	4/13/2022 7:28 PM
105	Good education, strong in morals and discipline. I trust Leman to educate my kids in a way that co-insides with our family values.	4/13/2022 5:56 PM
106	Amazing teachers and amazing education for our kids!	4/13/2022 3:34 PM
107	The staff and curriculum is excellent and the overall culture is great.	4/13/2022 3:10 PM
108	Great teachers and environment for learning.	4/13/2022 2:53 PM
109	Leman is a fabulous school. We love the parent-partnered approach and virtues and values based philosophy. The curriculum is great and our daughters are thriving at Leman!	4/13/2022 1:43 PM
110	We love the emphasis on character development, the encouragement for families to find a family balance instead of pushing for academics to be the highest value. The classical education and interrelated curriculum has been neat. Dr. Edwards is an outstanding principal, and it shows in the way the school is run.	4/13/2022 1:40 PM
111	Classical education ambitions, dress code, cultural goals/aims of the school	4/13/2022 1:34 PM
112	Wonderful educational environment with a close family feel!	4/13/2022 1:20 PM
113	The values the school, admin staff, and teachers promote is consistent with the values preached in our home. Also, love the focus classic literature, traditional math, and memorization. Believe they are creating curious, independent-thinking life-long learners. Lastly, was very impressed with the school's leadership during COVID, particularly prioritizing in-person learning.	4/13/2022 1:19 PM
114	Values, teaching method, communication between teachers and parents, teachers and staff, no homework on weekends, they really care.	4/13/2022 12:44 PM
115	The quality of education my daughter is receiving is the best I could have wished for. She seems to be more advanced than her non Leman peers. She is learning how to think, reason, and understand and not just regurgitate facts.	4/13/2022 12:37 PM

118	I feel comfortable that Lemman Academy's values are in line with my own. My daughter enjoys going to school there. The education is excellent without being overwhelmingly taxing.	4/13/2022 11:11 AM
119	I love the structure and values of the school. My few items of feedback are: As a high school writing teacher, I feel the 5th-grade writing program focuses more on the minutiae of completing a detailed checklist rather than the process of strong writing. Additionally, while I understand and support completing homework, the amount of time and the penalties for non-completion are preventing my son from engaging in his childhood (free play outside). Education is about knowledge gained, not points collection.	4/13/2022 11:00 AM
120	Mostly everyone is amazing that works there.	4/13/2022 10:55 AM
121	The accountability and education challenges my children and the staff are phenomenal.	4/13/2022 10:42 AM
122	We love the Classical style of education and the emphasis on character and virtue building.	4/13/2022 10:41 AM

124	Excellent curriculum, high expectations, virtues and values	4/13/2022 10:08 AM
125	The curriculum is spot on for what I want my kids learning. History rich and scholarly. The teachers are teaching school topics and nothing else which is appreciated. The parent community largely shares my families morals and values which makes me feel comfortable with the environment my kids are in and the friendships they are making (which transfer to parent relationships).	4/13/2022 9:46 AM
126	Values, morals and Charlotte Mason approach	4/13/2022 9:45 AM
127	The teachers and staff are wonderful! Dr Edwards is always supportive and kind in his demeanor. My kids loved going to school here and they both excelled in their academics with Lemman. I am so grateful we had the opportunity to get our kids such a great education, and I can't thank all of them enough for taking such great care of them!!!!	4/13/2022 9:41 AM
128	I have been a HUGE advocate for Lemman for the past 3 years. This year, however, I haven't been on my soapbox sharing about Lemman as I have in the past. I'm currently not negative about Lemman to others, but I am not sharing positives either...the way I used to. I think I'm waiting to see how next year unfolds before getting on my soapbox to rave about Lemman again. Please know, I still love Lemman and will always support the teachers, admin and staff. I'm just extremely frustrated as a parent that my son is so unhappy in school. This HAS NEVER happened before...and independent of the math/ELA class stuff (in the big picture, whatever, Kevin is smart and can handle the extra work or lack-thereof with math) ...I think it is the bullying that is the biggest contributor to his unhappiness. And this concerns me as I'm seeing a pattern of it happening at Lemman where nothing is getting addressed.	4/13/2022 9:39 AM

## Q11 Please provide any additional comments or suggestions regarding communication if desired.

#	RESPONSES	DATE
1	I would like to highlight Mr. Mundt and Dr. Borisov as two teachers who do an amazing job with communication. Mr. Mundt is not even my child's homeroom teacher, but I am thankful for his communication since my child's homeroom teacher(s) have not been very good at communicating with parents.	4/30/2022 9:02 AM
2	I think there was adequate communication with our teacher, however, a quick weekly or monthly update would be nice (via email). The "grade level" monthly updates seemed cumbersome, hard to navigate, and sometimes irrelevant to my child's classroom.	4/29/2022 4:02 PM
3	I'd like all teachers to use Remind app. Some teachers' emails are with DSCD domain and are never answered.	4/28/2022 10:47 PM
4	Teachers email back quicker if possible	4/28/2022 5:34 PM
5	ESS team provides little to no feedback to parents regarding scholars progress on their IEP's. Middle school teachers should improve on informing parents of assignments and their due dates so we can hold our scholars accountable and ensure assignments are completed BEFORE they are flagged as missing in infinite campus.	4/28/2022 2:36 PM
6	It would be nice to have a class list, and parents emails to better communicate, for each scholars class.....if parents agree.	4/27/2022 5:42 PM
7	I did not get emails answered from teachers in the 6th grade team.	4/27/2022 10:47 AM
8	n/a	4/27/2022 9:58 AM
9	I do believe this is a strength for Lemman Academy. However, often I find admin email responses seem canned and don't really answer the question.	4/27/2022 8:32 AM
10	My only comment is coming from other schools in DCSD is the safety of people coming in is unchecked. The door is unlocked before you say why you are trying to enter the school. Basically any psycho can enter the schools locked doors and they are in without explanation. At other schools you had to press a button, state who you were and who you were picking up to be verified to enter the building. I think the school safety in this regard could be significantly better.	4/27/2022 7:56 AM
11	General communications on the Remind app would be nice but I think you do a great job of informing us.	4/27/2022 7:42 AM
12	There needs to be more reminder emails and more advanced notice for fund raising. We always participate and have noticed that and heard that many parents forget. For example, we were disappointed to hear that only 2 people in one of our sons classes participated in the recent collection for the homeless. Both my sons really enjoyed this and I think it was an opportunity to teach an important lesson. There weren't many reminder communications and I have to think if there were that there would have been greater participation. The same with the dinner fundraisers. A reminder email a few days before and day of and I'm sure there would be increased turnout.	4/23/2022 10:00 AM
13	This year we did have our first issue though as the communication with our sons teacher was not up to par at all - this has definitely made me question the school and level of culture there with the trust in the teachers versus insuring the partnership with parents is also important. She would make statements to the scholars that were not appreciated at all - 1. Telling students about a field trip without stating anything to the parents and then the field trip couldn't happen due to bus issues. 2. Never informing parents of any behavior problems with a friend; yet, forbidding them to play or be by each other for more than two weeks 3. Informing the class they will "fail" if they don't get to a certain reading level by second grade 4. Telling the class she gets to pick their next teacher and if they aren't good she will put them with a bad second	4/23/2022 8:27 AM

grade teacher that doesn't celebrate holidays. Upon going to administration regarding no information about any negative behavior for my son I got no more clarifications at all. There were several times this year I got no response to calls or emails. It was a different year than our first and hoping next year is more like our first year.

14	It was very frustrating having a long acting Math substitute who didnt have scholar hours. They aren't vested in the students like a permanent teacher.	4/22/2022 8:56 PM
15	We love Lemman Academy and hope there may be an opportunity to expand into the high school levels!	4/22/2022 9:01 AM
16	I would love to receive weekly updates from the teacher to know more about what's going inside the classroom.	4/20/2022 10:21 PM
17	Consistency and central source for communications.	4/20/2022 6:43 AM
18	Sometimes there are several emails sent on the same topic due to errors. It would be nice to limit these communications as much as possible, as it can get confusing.	4/19/2022 7:01 PM
19	Keep up the good work. More consistency with grande level monthly newsletters.	4/18/2022 3:28 PM
20	I think we can improve the website, making it a valuable tool for the school to direct parents to. It would be nice to have announcements, current events added to the home page.	4/18/2022 2:36 PM
21	The bulletin that was put up by the pick up lane really helps..it was placed between two of the merging lines.	4/18/2022 1:10 PM
22	Emails are the best for us.	4/18/2022 12:29 PM
23	Some teachers are EXCELLENT at communicating (Mrs. Suparat!), while others aren't as responsive or proactive. A more consistent experience would be helpful.	4/18/2022 11:46 AM
24	Review emails and links prior to sending, so we don't receive multiple emails with updated or correct links. I would prefer to have a weekly email/remind app message. It's hard to juggle multiple emails and messages throughout the week when we have 2 (soon to be 3 kids) at the school.	4/18/2022 11:24 AM
25	Providing early communication on activities and what is needed rather than last minute is a real benefit to working parents who want to be involved but can not drop everything when they get a last minute notice. Also being very clear on any field trips, activities and the benefits of being involved versus the cost and what the other options are if it is not of value for this family.	4/16/2022 3:27 PM
26	Try not to send too much! Hard to keep up with sometimes.	4/16/2022 2:15 PM
27	Working Parents receive a large amount of emails. One primary area of communication focus is critical. Please let parents know which one it can be.	4/15/2022 7:47 AM
28	Maybe do Royal Review monthly (a lot of repeated information) with a shorter news blast weekly of things just happening that week.	4/14/2022 2:32 PM
29	Teachers could use more understanding and knowledge for special needs. Teachers should communicate options to parents outside the box so that kids struggling can be successful too. Be respectable of all disabilities if they are seen or not. When a parent is communicating their child is struggling teachers should work with the parent to find a solution and stay consistent with it	4/14/2022 11:19 AM
30	Please be more transparent. Please don't send out emails making it appear as though you will abide by a health department mandate when you actually have no intention of doing so.	4/14/2022 10:08 AM
31	I like the idea of the Remind app, but it's not super user-friendly	4/13/2022 7:28 PM
32	I appreciate the reminders sent by Starla as I usually need the reminder. I do like the newsletter, but appreciate the just in time reminders!!	4/13/2022 7:18 PM
33	I would love If there was a standard day for the whole school that communication goes home for parents in the homework folder AKA Friday folders. I appreciate emails too; however, if I ever have to reference something, it can be hard to relocate... trying to remember which teacher or email it was originally sent from.	4/13/2022 5:56 PM
34	Other years have been better. Ms Hofman isn't great with responsiveness or attention to detail. We think she is a nice, supportive teacher but we don't feel she is pushing Brooke. We feel	4/13/2022 4:19 PM

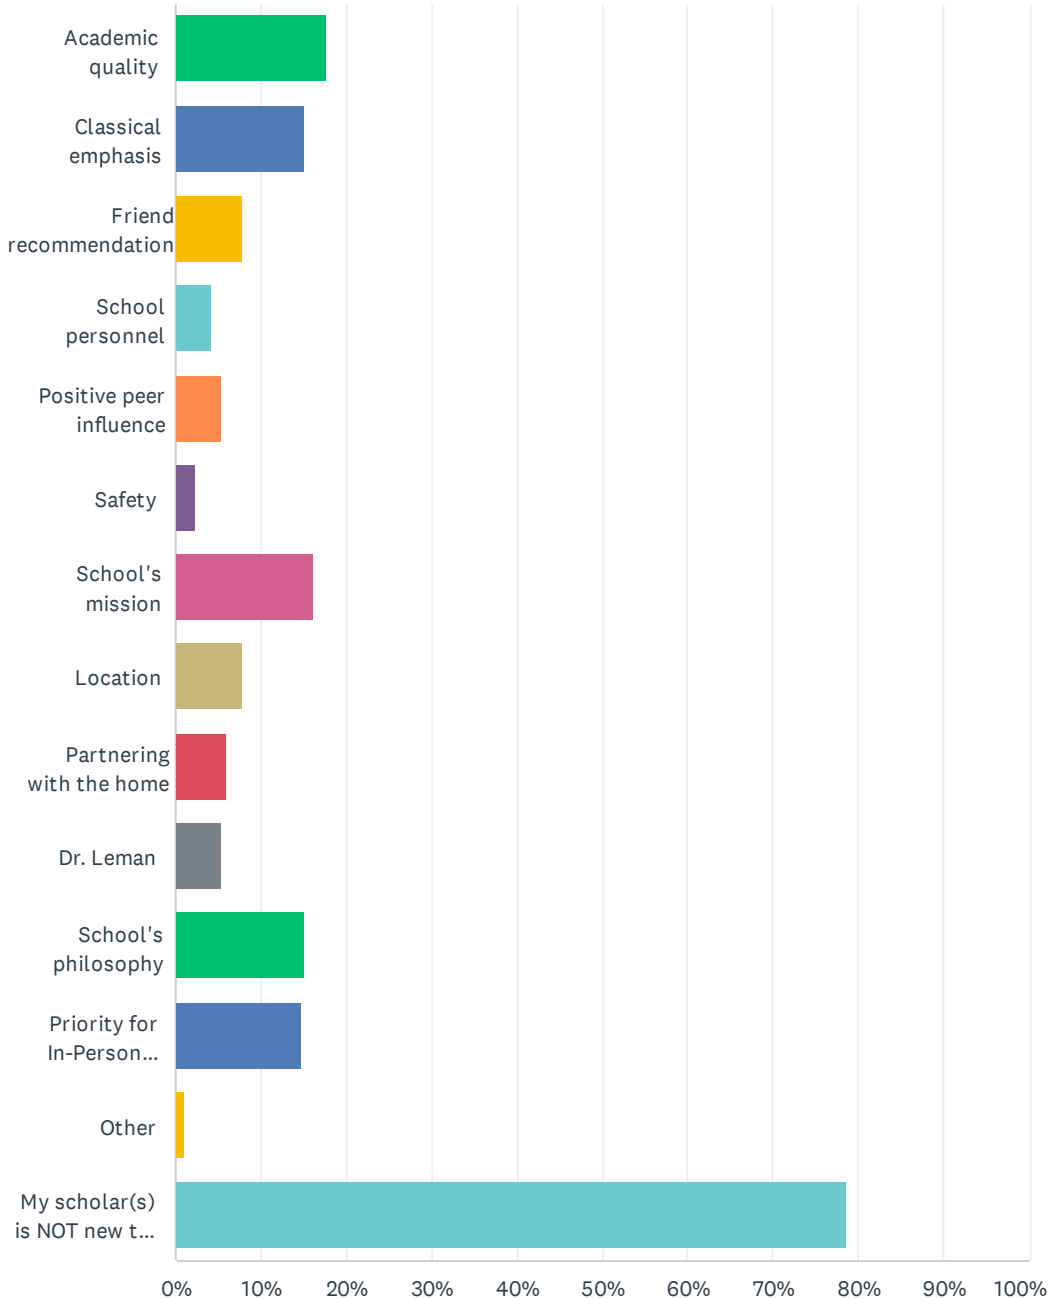

## 2021-2022 Parent/Guardian Survey: Lemman Academy Parker

she just accepts a good job and moves on. I feel like it's been a setback in her growth. The school overall is great but we hope for a more motivated teacher next year.

35	Communication in regards to parent expectations at the beginning of the year would be great - I.e. carline etiquette, where to park, where to find information they need, dress code guidelines, etc.	4/13/2022 1:46 PM
36	Content in the Royal Review tends to be outdated and therefore, I tend not to read it as often as I would read a general email from Starla. Remind app communication is really fantastic!	4/13/2022 1:43 PM
37	Some teachers send a weekly email and/or pictures, and that's helpful to the parents, I think, especially since it's still very difficult to get into the school post-covid. When Mrs. Bourgouin sends a picture with my daughter wearing a crown, for example, it helps me engage with her because I know they had an awards assembly, even though I couldn't attend.	4/13/2022 1:40 PM
38	I would suggest that the Vice Pricipal of Logic would not email parents through her personal Gmail account.	4/13/2022 1:01 PM
39	None	4/13/2022 11:58 AM
40	It would be highly encouraged that when a Teacher is no longer at Lemman Academy, that an e-mail or some sort of communication is sent out telling parents/guardians of this BEFORE their child/children tell them at the end of the school day/week. That way, parents receive accurate information rather than hear-say or rumors/gossip.	4/13/2022 11:21 AM
41	I really value the weekly emails from Mrs. Bermeier as a heads up about what is happening in class for the week. It makes partnering clear.	4/13/2022 11:00 AM
42	I have had problems with infinite campus and have never been able to log-in, even with Starlas help. That has been frustrating.	4/13/2022 10:41 AM
43	The biggest challenge with communication I've experienced is with the administration, specifically phone contact. It's the first school I've ever seen that doesn't have a voicemail for the admin, if that does exist it is under lock and key by the front desk staff answering the phones. There were several instances I experienced personally (and I know other parents who experienced the same) where I was only allowed to leave a message with the front desk and they would pass it along to the administrators. Email responses were sluggish at times from admin so a phone call seemed much more direct and prompt yet the overall feeling was that this wasn't allowed. The gatekeeper idea is extremely frustrating to parents especially when the issues involve very serious concerns that need to be addressed promptly. This should definitely be modified, it seems like quite a liability to be honest. Other than that the communication efforts as a whole have been great.	4/13/2022 9:46 AM
44	Personally, I think the information sent via Starla and The Royal Review covers what is needed and when.	4/13/2022 9:39 AM
45	One of my main concerns is safety on the playground. My son is in 2nd grade and most of the mishaps occured here. Bullying, etc. These were addressed with the teacher and she responded promptly. I have volunteered for lunch recess duty and there is an unsafe staff to student ratio. We are also not sure how much character education is taught. It seems that there are some very wild and unkind students at the school and I do not see much positive peer influence.	4/13/2022 9:35 AM
46	Would like regular updates on my kid's grades, behavior, etc., whether good or bad so we can be more informed.	4/13/2022 9:20 AM
47	Na	4/13/2022 9:12 AM
48	For current events, I like the Royal Review. For static things that don't change throughout the year like the dress code and the calendar, I like the website.	4/13/2022 8:59 AM

1	Burnout from being highly involved with a PTO at a previous school	4/30/2022 9:02 AM
2	I seem to see things when too late ( more lack on my part).	4/28/2022 2:43 PM
3	If I could bring my 3 soon to be 4 yo to volunteer opportunities, I would volunteer weekly	4/28/2022 9:13 AM
4	Please start streaming the PTO meetings so that people can attend live or watch later to know what is going on. With the technology we have today, this is accomplished at zero cost and very little effort. This would allow working parents to participate remotely, or at the very least watch the meetings later to know what is going on with the PTO.	4/27/2022 3:21 PM

7	For me I apologize. I am the parent at home and I think, if there was a better way for me to be targeted. But how can you know to do that unless you know that....?	4/27/2022 7:46 AM
8	I often just get busy and forget to sign up for things like lunch or copy room volunteering.	4/25/2022 10:46 AM
9	It would be great if the PTO could assemble a list of the opportunities that are available for working parents (ie projects that can be completed after hours). I wish there were more evening events/meetings. We loved the Dr. Lemman evening program this past year.	4/23/2022 10:00 AM
10	I'd love to be more involved; however, I'm a single working mom so need to have my kids there as well.	4/23/2022 8:27 AM

13	Both parents work full-time, so its hard to find time to volunteer. We also have a 4 year old at home.	4/19/2022 7:01 PM
14	If I didn't have a younger child at home I would be more involved with volunteering and PTO	4/18/2022 1:01 PM
15	I work 45 minutes away from the school 7-3:30 so I can't really volunteer during school daytime without taking a significant amount of time off work for driving	4/18/2022 12:06 PM
16	The main barrier for our family is just some health related issues (surgeries, etc.) that have made it difficult, but nothing the PTO or school has done.	4/18/2022 11:46 AM
17	I have had difficulty with the links to get in to volunteer and then there have been short notice or no notice on volunteer opportunities that I would have been interested in serving.	4/16/2022 3:27 PM

17	Maybe a back to school bbq event? Also, more scholastic book fairs, the Usborne one is frustrating because of the very high prices for books.	4/18/2022 11:46 AM
18	What is more important are the events that the students would really become engaged in and be a part of planning and running. From what I have seen they have little say and seldom do I see the excitement are engagement that I would hope for when an event takes place.	4/16/2022 3:27 PM
19	Outdoor movie night	4/14/2022 2:32 PM
20	Really appreciate the work the PTO put into planning. It's exhausting and our family is pretty burnt out from years of coordinating, volunteering etc.	4/14/2022 11:22 AM

24	Volunteer events you can do with your kids	4/13/2022 10:26 AM
25	Not that there aren't enough events but I'd love to see something like Donuts with Dad and some other get togethers with kids possibly grade specific, my kid has a hard time getting to know friends outside of the classroom environment. The skate night and urban air night are things that we really enjoy and I'd love to see more of those even if attendance isn't massive, a simple park play day or bike/skate the parking lot night would be similar and fun too	4/13/2022 9:46 AM
26	Two middle school dances - one during the first semester and one during the second semester. I would also like to see an 8th grade only fun field trip. Maybe to the ropes course in Castle Rock. Something fun for just 8th graders....start a tradition, something all scholars can look forward to for when they are in 8th grade.	4/13/2022 9:39 AM
27	Bike a thon, trash clean up events, tree planting, family dinner events/banquet	4/13/2022 9:24 AM

#	IF DISSATISFIED (PLEASE SPECIFY)	DATE
1	There are a lot of middle school teachers who don't seem to take their scholars very seriously, many of them also seem to think that homework is the only thing kids should be doing outside of school, when many kids have sports or church to also attend.	5/4/2022 6:44 PM
2	Uneven distribution of homework in some subjects, some days there is little, others - a lot( 3 hours), sometimes (or rather often) there is homework on the weekend, and they promised on a school tour, there would be none ( ELA, Science).	4/28/2022 10:57 PM
3	This has been a hard year in middle school for our scholar because of friendship issues. Academically she is doing just fine, and we realize it is just a difficult age, and kids can be cruel. As parents, we are satisfied with the school and appreciate the education,	4/27/2022 5:48 PM
4	Our child no longer enjoys school or learning. Please make learning fun! Esp. for the littles.	4/27/2022 11:04 AM
5	There has been a lot of unkind kids, no discipline for rude or ugly comments made in class. The teachers hold kids to expectations but not themselves	4/27/2022 9:04 AM
6	Prior to this year my child has loved LAE. This year he has had some hard kids in his class. His teachers have not been able to manage the class and group punishment, yelling has been the norm. I have met with admin and the team several times throughout the year. It improves for a few weeks and goes right back. I do not feel that there is a quality social emotional behavior program in middle school, and there needs to be more positive reinforcement, esp for the scholars that are doing well.	4/27/2022 8:48 AM
7	We had a change in teacher after winter break for our 1 st grader. I feel like the communication from the new teacher was minimal on expectations and class work was slow to be returned	4/26/2022 10:31 AM

## 2021-2022 Parent/Guardian Survey: Lemman Academy Parker

with grades. Therefore 3rd quarter I feel like my scholar suffered as the teacher was very harsh on grading and gave no reasonable accommodation for being new to the classroom. Also she refused to call me or my husband when we had concerns and wanted to discuss

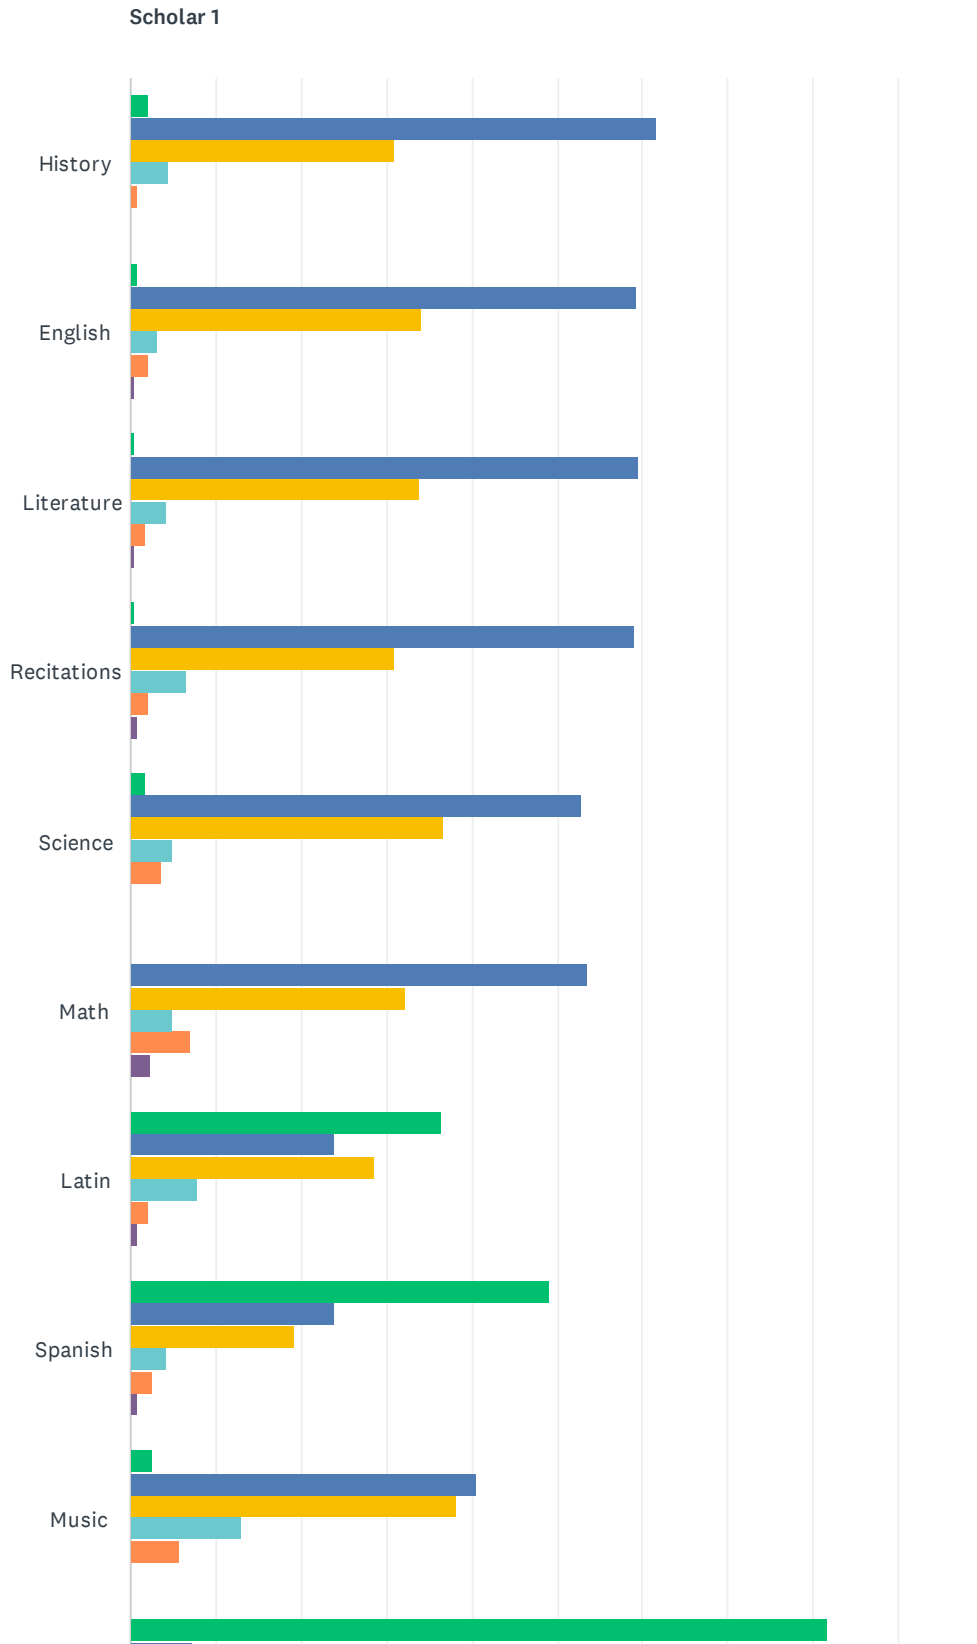

8	They complain about uniform but we love it! It's easy.	4/23/2022 10:19 AM

10	My kindergartner struggles with other kids in class sometimes. She feels left out often.	4/22/2022 5:21 PM
11	Too much homework	4/21/2022 3:49 PM
12	He is struggling with lack of compassion and the level of strictness now that he is in 3rd grade. His teacher is not very warm or friendly. While we value a strict teacher, we also value warmth, caring and friendliness.	4/19/2022 7:07 PM
13	See above	4/19/2022 5:01 PM
14	3rd grade instructor yells alot. He finds he has to teach himself in her class as well.	4/18/2022 1:18 PM
15	One of my kids doesn't like the homework.	4/18/2022 1:04 PM
16	He has anxiety and we have mentioned this to the teacher and he feels like he is always rushed depending on the subject.	4/18/2022 12:51 PM
17	Math teacher needs to be a teacher who really knows the subject and projects enthusiasm for it.	4/18/2022 12:35 PM
18	High staff turnover, lack of communication with parents, teachers treatment of scholars (teasing, mocking, lack of care for feelings)	4/18/2022 12:21 PM
19	The one thing that is enjoyed is not having homework on the weekends. The challenges has been in the culture and making friends as there seems to be little opportunities for that and the specials are significantly less challenging and satisfying than the prior school. There was a great deal of disappointment with not being able to do the pottery and many of the projects are less than was being done in the 3rd and 4th grade of prior school Music and PE both seem to be just rudimentary and not very challenging or enjoyable. Latin is enjoyed and hated to miss though not as challenging as would be desired.	4/16/2022 3:47 PM
20	This was a tough year to transition in. My scholar had a hard time making new friends, felt the academics were behind level, and often felt bored. She mentioned the gym teacher doesn't know their names or grade. Her own teacher also at times was not thoughtful. At one point, the teacher accused her of doing something on a Friday afternoon. My scholar was completely baffled and later decided to ask her teacher for more detail via email. It turned the teacher has accidentally mistaken her for another student. This caused my high performing and thoughtful scholar much distress. Especially delivering this on a Friday.	4/16/2022 2:23 PM
21	Scholar feels unsuccessful at school and frustrated with homework. Does not seem to be adherence to 504 plan	4/15/2022 9:55 PM
22	The older my kids get, the less kind and loving environment. The culture diminishes. The homework load is too much in 8th grade and not enough in 4th (my daughter had none ever!).	4/15/2022 3:29 AM
23	Teachers were not companionate. Did not find solutions to help them be successful. They did not see my child as a whole person but pushed to hard to get the grade or to be like everyone else making my child not do well because they were overwhelmed and exhausted.	4/14/2022 12:36 PM
24	Unhealthy social environment as outlined above - as parents we definitely do not feel that the MS teachers want or care to come alongside parents outside our homeroom teacher. It's typical of public schools and we were hoping for a better relationship at Lemman. BUT, on an academic level working with our scholar, things have been mostly positive - it's the misbehavior of the students and the crass language and disruptive behavior that has been very challenging to our scholar.	4/14/2022 11:39 AM
25	My scholar has gone through many teacher changes this year and last year, which has been hard on him. He feels like the teacher he ended up with is not very warm. Also, the homework expectation is almost always over the amount of time allotted per grade level (10 minutes per grade.) He often feels stressed and overwhelmed and he's only in 3rd grade.	4/14/2022 10:15 AM
26	Communication and conversation is approached as united, however actions are very bias and	4/14/2022 7:24 AM

	point finger blaming.	
27	Lunch program is lacking and expensive	4/13/2022 7:34 PM
28	Older child needs more variety. Doesn't feel challenged in math. Younger has homework on things not taught in the classroom yet. Example square roots before learning times tables.	4/13/2022 5:05 PM
29	Only issue that was very difficult for my daughter was the amount of time that it took to find a long term sub for Mrs. Llewellyn during her maternity leave. For 3 weeks she had a handful of subs and the lack of consistency was very difficult for my daughter.	4/13/2022 3:03 PM
30	Scholar 1 has had two teachers in a row who haven't been able to show that they care about her progress and can engage with her and challenge her. It's led to a couple disappointing years academically.	4/13/2022 1:59 PM
31	Has had difficulty for 2 straight years with her teacher and poor/inappropriate discipline within the classroom (among other relational issues with the teachers.)	4/13/2022 1:44 PM
32	NA	4/13/2022 12:18 PM
33	Communication has been lacking between Teacher and Parents since the beginning of the school year with constant changes being made as to who will teach the class. Teacher could also work on encouraging students rather than rushing through content to catch the class up. The pressure can be felt to move fast through a topic/subject and nothing will be retained after that.	4/13/2022 11:44 AM
34	There are have been more conflicts this year between my scholar and his teacher this year. Some over vague expectations, some over classroom management, and some over amounts of work. I communicate often with the teacher when I need clarification. However, having some information in advance about what is happening in class (tests, subjects, projects etc) would have helped ease a lot of tension.	4/13/2022 11:38 AM
35	My younger scholar complains almost daily about being physically harmed by a scholar in his class. This scholar is also hurting other scholars in his class. This has been the biggest complaint this year. He loves everything else.	4/13/2022 11:16 AM
36	He thinks it too academic and hates the homework.	4/13/2022 11:06 AM

39	No extra support for areas of struggle.	4/13/2022 9:40 AM
40	He's had a hard time making friends and also getting along with teachers. I get that this is classical learning but Dr. Lemman also talked about school being a better place than what he had experienced and to be honest I don't think that comes through. The teachers are committed to the curriculum but not caring for scholars.	4/13/2022 9:26 AM
41	Our scholars do not feel connected to the staff at Lemman nor do they feel motivated or inspired by the staff. Rules without relationship are meaningless.	4/13/2022 9:11 AM
42	They had a really hard year with kids this year- lots of mean rude kids, teachers doing nothing about it.	4/13/2022 9:03 AM
43	She has had a few staff member issues. Nothing of concern to us a parents. She feels as if they were out to get her. I have addressed it with the staff member and there are no hard feelings.	4/13/2022 8:45 AM

#	ADDITIONAL COMMENTS	DATE
1	Scholar 1 was in band for a few months but was pulled and put into private lessons when we heard fr several parents and scholars that there was no instruction and the teacher played on her phone while they tried to teach themselves.	5/5/2022 7:57 PM
2	Ms. Petrie was lazy in orchestra and then tried to blame it on my child. Literally told me my child needed more help the week before the first concert. Mr. Jensen abandoned my child to cry alone on the curb after orchestra.	5/5/2022 7:38 PM
3	Second language work be more efficient if presented as a class more often.	5/4/2022 9:10 AM
4	It would be helpful if Band/ Orchestra was offered during the school day rather than after school, so that scholars do not have to choose between sports and Band/ Orchestra.	5/2/2022 12:10 PM
5	Scholar 1: Math felt inconsistent and disorganized at times with multiple teacher changes; Too many stipulations with study hall and not being able to work on certain kinds of homework; Felt	4/30/2022 11:41 AM

## 2021-2022 Parent/Guardian Survey: Lemman Academy Parker

confused when asked to select elective options but then 2 out of 3 times was placed in an elective that was not selected; Music felt too basic and uninspiring; Lord of the Flies was my favorite book and All Quiet on the Western front was my least favorite book. Overall I don't enjoy classical books. Scholar 2: PE had a football unit that was really long and otherwise classes were very random; Losing my original math teacher was difficult; The Hobbit was probably the best book we read and I didn't like Adam of the Road at All. Overall the required reading is boring. Dr. B and Mrs. Barrera are my favorite teachers this year.

6	Always get the electives he doesn't want by default ( good subjects are already taken by someone). CMAS test done in paper! Are you kidding, guys? We need technology, despite the school is a classical one. Let's raise money through donation from parents .	4/28/2022 10:57 PM
7	Increased teacher to parent communication would be great, but otherwise couldn't be happier. Also, it would make scholars happy if recitations could be scheduled for any day other than always on Fridays. It's the only day they get to dress in their own clothes but that's often taken away because of recitation attire requirements.	4/28/2022 2:46 PM
8	Our littlest one would really like it if there was a choir that she could attend.	4/28/2022 9:11 AM
9	my daughter in fifth is not doing well in various subjects, subsequently went for scholar hours which did not help. Dont know what happens in scholar hours if its the teaching or my scholar. but grades are not improving with these subjects	4/27/2022 8:53 PM
10	I generally dislike the Saxon math textbooks. I think they focus way too much on goofy methods of breaking down problems, which, in my opinion, often makes the problems themselves harder.	4/27/2022 3:36 PM
11	Latin: it seems like the teacher doesn't put a lot of effort into lesson planning or teaching, they mostly did basic worksheets for most of the year Orchestra: teacher needs classroom management skills, the students did not progress as they should have, time was wasted by individual students causing disruptions that the whole class was punished for, and the teacher repeatedly complained about scholars not coming prepared and leaving the band room in disarray-that should be handled with those individual scholars and their parents. Why not have students be individually dismissed after the teacher has determined their space is clean, rather than having a few students who always stay late to pick up the room. Accountability is lacking. Music-teacher seemed to prepare very little in the way of lesson plans, scholars complained that the lessons were very simple and basic (listening to a CD for the entire class...?), not engaging/participatory, and below their skill level. PE-scholars complain the entire class is punished when a few students are acting disorderly. Please institute personal accountability for students, so that those who DO follow the rules can enjoy participating in class, instead of everyone sitting as punishment when a few kids are disruptive. SO frustrating.	4/27/2022 3:30 PM
12	We have no idea how our scholar is doing in his homeroom. It has been weeks since grades has been posted on the infinite campus. We have to ask the teacher for graded work. We were told she was too busy or missing the blue folder to place work in. A communication to state the folder was missing would have been helpful. Sent the blue still no graded work until asked. When we finally receive graded work, we notice the same mistakes are being made week after week. By the time we are aware of the issue, our child's grades are already affected. Consistant feedback so we can support is helpful and appreciated.	4/27/2022 11:04 AM
13	I've not seen anything relating to history from my child, but she is only in Kindergarten, so that may not be applicable yet.	4/27/2022 9:57 AM
14	My older kids would rather learn Spanish then Latin as it is more useful in the world around them	4/27/2022 9:04 AM
15	Need more and better electives. study hall needs to be consistent and homework better organized so scholars aren't overwhelmed one night and then a day they have study hall have nothing. PE is too strenuous at this age. There were kids in my child's middle school class puking from running.	4/27/2022 8:48 AM
16	I wish there were more of these schools. The growth my daughter has had in just one year is incredible. Thank you!	4/27/2022 7:46 AM
17	Both of my children complain about specials. Their biggest complaint is that the teachers punish the entire class when one or two people misbehave rather than punishing those individuals directly. Quite often their already short time in specials is cut short. They bring this up all the time and get upset by it not being fair to those who are behaving.	4/25/2022 2:15 PM

18	I wish there were more athletic options. My scholar always complains about how boring music class is, which to me, seems like it could/should be a really fun class.	4/25/2022 10:51 AM
19	Love the art APP- have ordered many gifts from it. Wish they had done more art projects. Wish there was more opportunity to play school sports for those who also play competitive sports outside of school. They would like to also see more scrimmages and dodge ball in PE.	4/23/2022 10:19 AM
20	My girls all dislike music. They rarely talk positively about it. It is my understanding there is very little singing, playing or actual music being made. One of my girls tells me all they do is talk about things.	4/22/2022 5:21 PM
21	5 th grade had too much homework	4/21/2022 3:49 PM
22	We don't see or hear much about latin class, now that our 3rd grader is taking latin. We're assuming it's happening.	4/19/2022 7:07 PM
23	There was very little writing occurring in my scholar's 4th grade and I don;t feel he's prepared for 5th grade in regards to writing.	4/19/2022 8:54 AM
24	I am not a big fan of Saxon math, especially for early grades, as it does not provide enough emphasis on number sense development, which research shows is key for developing higher math skills. I've taught Saxon, Addison Wesley, & Singapore math. My kids did Go Math at PCK preschool. I feel Singapore and Go Math are much stronger programs.	4/18/2022 3:46 PM
25	Hope to see more stability in the middle school staff next year, and not have teachers leaving at various points in the year.	4/18/2022 2:40 PM
26	Would like to see more diversity in literature chosen (what is going in the entire world); more minority choices provided in lists of those who have made contributions to history (MLK isn't the only one!)	4/18/2022 1:29 PM
27	Math is a struggle ...not lemans fault. Music all of my kids complain it's their least favorite.	4/18/2022 1:18 PM
28	Disruptions in middle school math causing a lack of consistency have been frustrating, especially as we prepare for high school math	4/18/2022 12:22 PM
29	Too much teacher turnover, math was a disaster this year for both my 8th and 6th grader.	4/18/2022 12:21 PM
30	Keeping the class focused and moving forward together can be a challenge it seems and when you have a student who wants to learn and then move on it is challenging to have less focused students to contend with. Additionally, the I do not know where the reenactment comes in in this review but it was very disorganized and from an outsiders perspective ineffective if the purpose was to live the experience. It was neither a good experience for the students or teachers I would suggest and they lost a lot of time doing it for very little if any return. It also did not represent Lemman in a positive light because I thought that you all were the ones running this show and it was not until a teacher told me ( while I was volunteering) that you all were not involved- just hosting. I would not encourage you to let a vendor come in and take over like that. Whatever you do or host reflects on the school.	4/16/2022 3:47 PM
31	The content is not nearly as rigorous as expected.	4/16/2022 2:23 PM
32	The reason for historical US holidays such as MLK are skipped over, but in-depth on Chinese New Year. Need to target all. I feel there is a confusion with classical style learning verse old and outdated literature and recitation. Classical style can still be up to date and fun.	4/15/2022 9:55 PM
33	2nd grade PE, just get too many comments about being the "worst class of the day" and my very compliant child is put with troublemakers a lot to be a good influence and just gets discouraged that her group is always in trouble and yelled at.	4/14/2022 8:36 PM
34	The curriculum is amazing, but I find that my children excel at math and it is hard to create differentiation for just that subject to challenge them since they do not qualify for GT due to scoring in ELA. It is easier for their teachers to differentiate and provide different books/prompts for those who need extra rigor in ELA, but would love to see a little more for those that also excel in math as well.	4/14/2022 3:54 PM
35	My scholar is above grade level in math but there are no opportunities to move up.	4/14/2022 1:21 PM
36	Math all around has not been successful	4/14/2022 12:36 PM

unhappy when the four square area was taken away for the picnic cover. They do not feel Lemman is in touch with what the kids need or want - it might be worth doing a school survey. For raising \$100,000 that was supposed to help provide equipment geared toward the older scholars, they are disappointed and confused by the results. Just FYI on the feedback we have heard.

38	We were disappointed with the 4th grade reenactment experience. A lot of time was wasted during chaotic "practice" sessions in which scholars sat around doing almost nothing for several afternoons. We asked our scholar what they learned from the experience and they couldn't even tell us who won the Revolutionary War. The organization running it (whom we're assuming was paid A LOT of money) did not bring enough staff to run the practices or the reenactment and failed to provide a meaningful experience. Perhaps other organizations can be considered for future years? We were disappointed with Mr. Estes specifically. There were many days that he failed to teach a math lesson or assign any homework, he never communicated expectations clearly, he "rewarded" our scholar for good behavior with no math homework (lost learning), our scholar was not challenged by his teaching but did not qualify for the gifted program, and we had to supplement our scholar's learning the entire school year. We were very pleased with Miss Mergl and Mrs. Sparks. Mrs. Sparks had the challenge of coming into her classroom mid-year and has done a beautiful job. She is organized and clearly set expectations at the beginning of every week. Would it be possible to expand the pool of authors for recitations? Surely he wrote some nice poems, but Robert Lewis Stevenson seems to currently account for about 80% of recitation choices. Mrs. D'Arcy has been a fine, caring, hard working Vice Principal and will be greatly missed. Nurse Jacenta Wirth treated us with professionalism and care, which we appreciated. Nurse Theresa Worker is rude and unprofessional. It seems as though she does not like to interact with parents, which makes us wonder why she works in a school. Lemman excels in art and music education! All of our scholars' art and music teachers have been exceptional, Mr. Jensen specifically.	4/14/2022 10:35 AM
39	Scholar one just didn't love most of the book choices for literature. Recitations: Recitations were always scheduled on Fridays, when it's normally their free dress day. It was very disappointing for them to have to dress in their best ( Without an option to change) on their one day a week that they usually can dress casually.	4/14/2022 10:15 AM

44	The math curriculum is my least favorite. I think a more recursive program would be better. The lessons seem unrelated and to jump all over the place. It makes it hard for my child to retain what they are learning	4/13/2022 2:04 PM
45	The history curriculum so far has been great and the scholars have all loved learning and making history connections. Mrs. Casagrande has done such a good job fostering a love of art in our scholars. Mrs. Whitcomb meets expectations as far as art goes, but hasn't fostered a love of art in my 4th grade scholar.	4/13/2022 1:59 PM

48	Middle School: Far too many phones out. Tik toks being made at recess and in the hallways, locker time, etc. Electives should be success grades and inspiring! Not full of homework and scholars getting D's for grades. It needs to be even across the board for all electives. It's not fair when one class doesn't do much and gets an A and the other is bogged down with outlines and homework and gets a D. Math has been a HUGE issue across the board in Middle School.	4/13/2022 12:41 PM

separately. I went ahead and e-mailed the Music Teacher twice and never received a response back. Again, the lack of communication at this school between some of the Staff has been frustrating when trying to reach out and ask questions. They will either e-mail you with a cliché answer that doesn't help or ghost you with no response.

53	Science for middle school has been a bit of a let down for my kid, a lot of content but not really any fun. Science is the easiest subject to have hands on fun experiments and experiences and I see a major lack of this. Coming off of a homeschool year where everything we did was engaging and hands on and fun this has been a big let down for him. On the other hand my 5th graders teacher has gone the extra mile to do exactly this, frog dissections and other fun things, memorable learning for sure. Music is a big point of contention for my kids (and for several parents I've spoken with) the teacher is not engaging, very dry, will only give a 95% on grading no matter what and will give a very low grade (50 and below) for one off day which tanks their grades. One single day can bring their A down and ruin their chances of high honor roll entirely, one day. That isn't right. They dread music days and yet they love music (play piano and guitar at home, etc) which is unfortunate.	4/13/2022 10:00 AM

1	Sometimes they have a hard time focusing, so it takes a lot longer!	5/5/2022 2:15 PM
2	I feel the amount of homework given is a distraction from rest & family time after a full day of thorough instruction & learning. Some of the assignments seem to be busy work and not necessary or beneficial. I'm not completely against homework, but I think the amount could be significantly reduced and the assignments more streamlined or purposeful.	5/4/2022 11:20 AM
3	But the motivation for my second graders wanes extremely through the year.	5/4/2022 9:10 AM
4	As a parent I appreciate the effort to not give homework over the weekends and having study hall a couple of times per week to help with the after school load. Both of our kids had multiple math teachers and some required homework to be turned in weekly and some required daily. The kids and I agree that weekly is preferable since some weeknights have more extracurricular activities than others and it's less stressful to know that you can catch up with homework on the less busy evenings if needed.	4/30/2022 11:41 AM
5	My scholar has special needs and they have worked to reduce his homework to fall within the guidelines however he still needs more time with some of the advanced math concepts	4/29/2022 6:04 PM
6	Often times they've been given time at school to complete homework so the amount they bring home is typically less than said guidelines.	4/29/2022 9:18 AM
7	Kindergarten homework load is substantial. It's too much for little brains than are already worn out from a full day at school and then come home and have at least an hour of homework to do.	4/28/2022 2:46 PM
8	That is, if he can concentrate. About half the days doing homework is about double the time due to procrastination and tiredness. Also the math facts are a bit redundant, and he seems bored with them, but otherwise homework time is fine.	4/28/2022 9:20 AM
9	As first year to Lemman, both kids needed time to adjust with the 'Saxon math, one year ahead'. They did need extra help throughout the year, but they are doing very well now.	4/27/2022 6:53 PM
10	I think my kindergartner and 2nd grader spend more time on homework than the stated guidelines, but this is probably a good thing.	4/27/2022 3:36 PM
11	In 1st grade home work takes us min 2 hours a night. This is with also doing homework on weekends.	4/27/2022 11:04 AM
12	Regarding 4th grade, there is a lot of material and end of year projects that have to be memorized. This becomes daunting and stressful for the scholars.	4/27/2022 10:53 AM
13	This probably depends on the kid. One is very motivated and gets things done quickly. The other takes a little more to get motivated.	4/27/2022 10:17 AM

## 2021-2022 Parent/Guardian Survey: Lemman Academy Parker

14	We are a very academically supportive family but feel that the amount of homework seems to be a excessive for our scholar's age. She is in 1st grade and has an hour of homework each night. With after school activities, it takes up most of our evening as a family. Having about an hour of homework every evening that covers the exact same topic is often exhausting and especially challenging to complete with any other activities or just simply time to play. Parents do not schedule play dates for kids during the week because of the homework and at this age I think the kids social skills are suffering. If our scholar misses one evening of homework due to events or illness... that means a two hour session the following evening to get caught up. It's almost impossible to get a 1st grader through that much homework after a long day of school & it puts stress on our scholar as well as our family. It does not allow for much flexibility and I'm not sure that it benefits her more.	4/27/2022 10:16 AM
15	Some weeks we are doing over 2 hours of homework each night. It is hard to get it all completed and do special actives after school. Incomplete directions given to the parent really hinder how we need to support the scholar.	4/27/2022 9:47 AM
16	The younger grades (K-1) have way too much homework for their age...	4/27/2022 9:04 AM
17	Homework can be a lot and way too much sometimes. Especially for students that struggle more. It is frustrating for the student and parent. I dont think upper grades should have more than an 1hr of homework. They have ready been at school all day and their famy would like to be able to see them during the week as well	4/27/2022 8:50 AM
18	My middle schooler often has significantly more. There is very little consistency among days and teachers what they give.	4/27/2022 8:48 AM
19	Homework is a battle in our home and always takes more time.	4/27/2022 8:19 AM
20	I appreciate that my scholar does not have much homework. I also love that study hall is an option so that homework can be started and perhaps finished before end of the school day, in order to free the evening for activities and family time.	4/25/2022 10:51 AM
21	There is too much emphasis on homework at Lemman. This is one thing I dislike. At the end of the day, after they are tired from focusing and working all day, I don't believe it's an effective tool to reinforce the lessons. Many days they are to worn out to focus on it. There is a lot of frustration in relation to homework at our house. Many nights there are tears.	4/22/2022 5:21 PM
22	In kinder homework took us 45 minutes and now in first we average 45 minutes to 1.5 hours It ruins our week. The homework is boring and causes a lot of fights.	4/22/2022 4:50 PM
23	5 th grade has too much homework	4/21/2022 3:49 PM
24	My kindie scholar is tired by the end of the day, so it takes longer. Also, the worksheets are consistent with guidelines, but the added time with sight words, math facts, and reading bump it way over the limit.	4/20/2022 1:42 PM
25	My scholar utilizes the study hall time well, rarely has much homework to bring home.	4/18/2022 2:40 PM
26	Again he struggles with Math and Spelling so homework is a challenge for him.	4/18/2022 12:51 PM
27	We do not have any complaints about the amount of homework, especially as our 5th grade scholar tends to get a lot of it done at school. However, if we had to go one way or the other, we would always vote for less homework in general. Evenings are already so busy!	4/18/2022 11:54 AM
28	My scholar is able to focus and complete most of the homework in school especially if there is a study period. This scholar has great focus and drive and wishes to have evenings to do other interests so the motivation is there to do excellent work within the framework of the work day. If there is homework that is not completed in school, it is the first thing done while eating a snack.	4/16/2022 3:47 PM
29	We moved to Lemman because our last school (American Academy) had too much homework. We are pleased with the level of homework Lemman has.	4/16/2022 7:58 AM
30	We generally spend about two each night on homework. Attention span is a challenge after very little breaks within school. Teachers need to learn that taking away a child's recess is more punishment for the teacher trying keeping the classes attention.	4/15/2022 9:55 PM
31	Homework takes 45 min-1hr consistently in 1st grade.	4/15/2022 3:05 AM
32	My scholar works hard to complete work during study time.	4/14/2022 1:21 PM

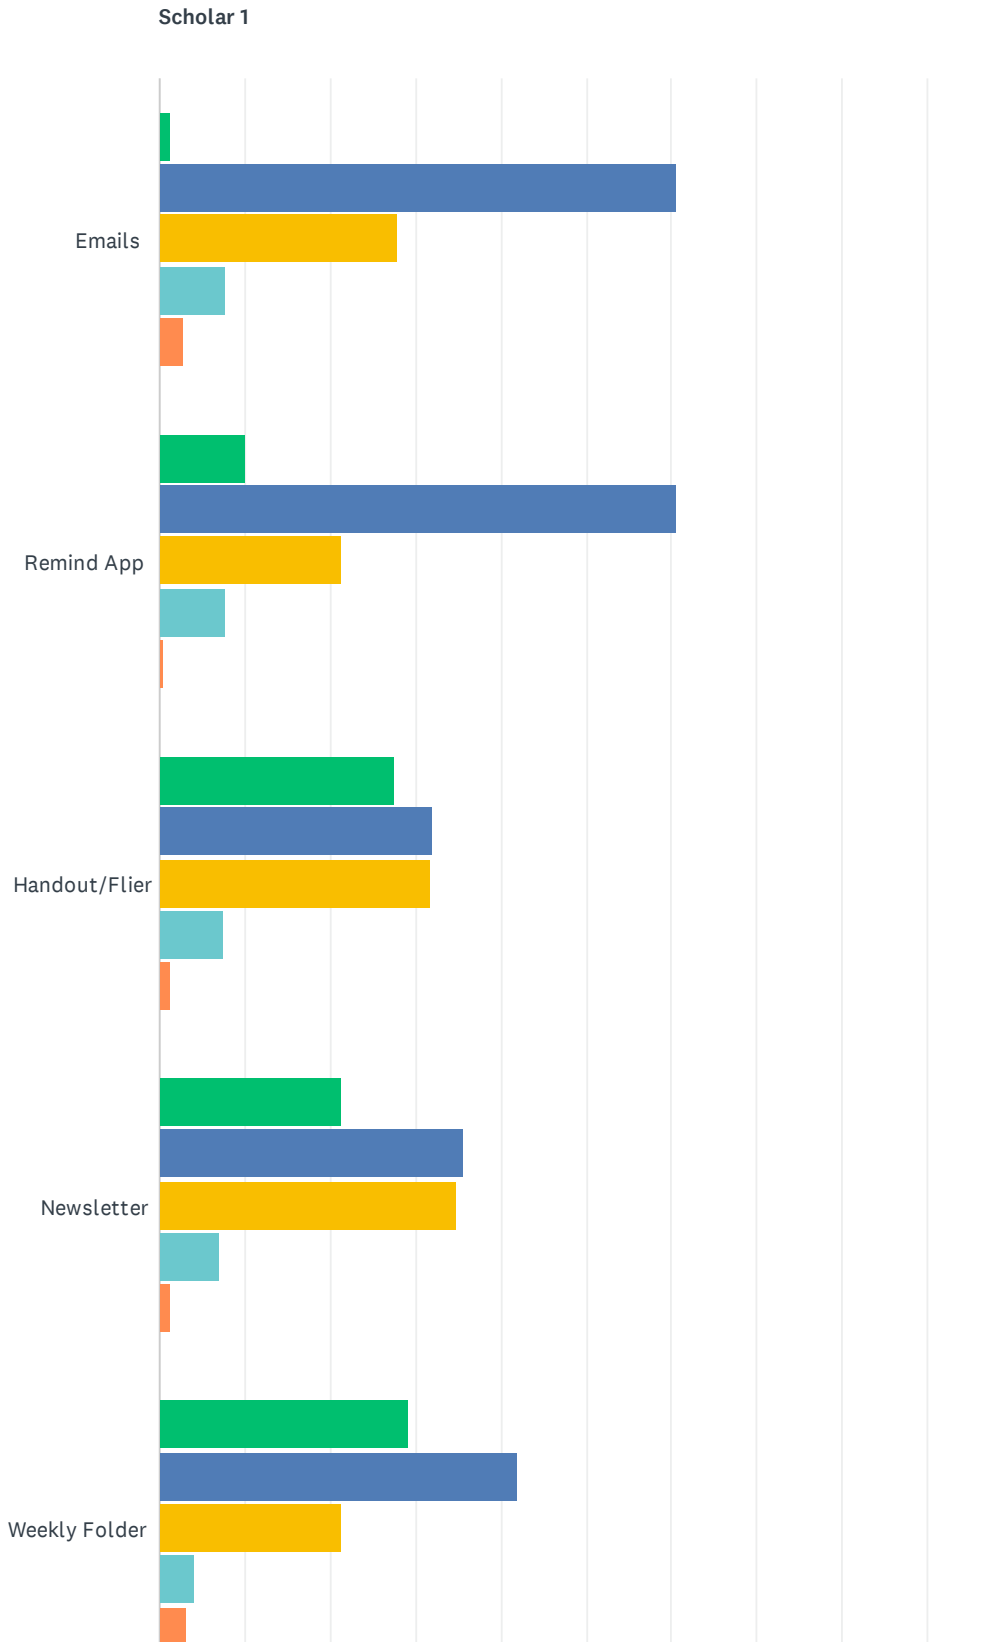

2021-2022 Parent/Guardian Survey: Lemman Academy Parker

33	Homework is such a challenge. Kids are tired after school and need more of a balance. They shouldn't have so much homework	4/14/2022 12:36 PM
34	We have had an exhausting year with a lot of homework in the evening with our 4th grader - they are meticulous and just slower, so we have had nearly zero family time. And...shockingly little to no homework with our 7th grader, which has been nice since they are both just exhausted by the end of a 7:30-3:30 day.	4/14/2022 11:39 AM
35	Should be less homework per week for all levels	4/13/2022 10:15 PM
36	Wish it were less but in line with guidelines	4/13/2022 4:27 PM
37	n/a	4/13/2022 1:44 PM
38	It's a bit hard to gauge this as a parent because my kids complete a lot of their homework in study hall or in school. I am basing my observations primarily on the schoolwork completed at home.	4/13/2022 1:33 PM
39	For Kindergarten, I didn't think there would be so much homework to do at home. Between studying their Recitation, doing Math, Sight Words, Phonetic Fluency Packet, Reading, and Segmenting/Blending worksheets...it's definitely quite a lot to tackle, especially when the student is wanting to just take a breather after being at school. It takes us longer to complete and my child then has this attitude of NOT wanting to go to school because of all of the work he has to do. It's only Kindergarten and I feel Lemman Academy has taken that love of learning away to only focus on how well he does on Tests. It seems to be about his Test Scores and he's doing good on them but the emphasis is too much on Tests.	4/13/2022 11:44 AM
40	n/a	4/13/2022 11:16 AM
41	My student gets most of his homework finished in study hall.	4/13/2022 10:48 AM
42	I have a student on an IEP and the homework takes significantly longer to get through because of his learning disadvantage.	4/13/2022 10:45 AM
43	Generally their homework is consistent, I have noticed however in middle school that the teachers don't appear to talk to one another and realize how much they're sending home at times. There have been probably a dozen nights that my kid is up until midnight completing work and is very frustrated that each teacher has assigned significant projects on top of each other. More coordination there would be nice. He is a very astute student so if he is struggling to this degree I can't imagine what the other kids are experiencing that aren't as strong of a student.	4/13/2022 10:00 AM
44	The homework has become quite a bit more than we anticipated. I think for kindergarten and first grade is a bit excessive. I think it's hard for this age to come home and sit down to do more work so it can take much more than 15-30 minutes.	4/13/2022 9:49 AM
45	It's a lot of time and I feel my child is drained by the end of the day and the homework is too much	4/13/2022 9:49 AM
46	My child does at least 2 hours of homework. He is a slower learner though.	4/13/2022 9:48 AM
47	I love the my middle schooler has study hall. He has sports after school And this helps greatly.	4/13/2022 9:21 AM
48	The concepts weren't hard for my 3rd grader but the sheer amount had him working an hour each night which had him overwhelmed most days of the week (even though the questions seemed to be easy) I talked with the teacher regarding this and she suggested things we were already doing (breaks/snacks)	4/13/2022 9:08 AM
49	My 5th grader loves and utilizes study hour effectively to limit actual work done at home.	4/13/2022 9:07 AM
50	I realize that each child completes their work at a different pace but I have always felt the homework was too much and took too long. I am considering homeschooling for 4th grade.	4/13/2022 8:48 AM

1	Ms. Chiquito is phenomenal. She has been so amazing to work with this year. She is kind and very helpful. We absolutely adore her!	5/5/2022 7:38 PM
2	Scholar 1 answers are based on his homeroom teacher(s). Thankfully Mr. Mundt filled in those gaps for us by being an amazing communicator through both his weekly email/newsletter and reminders through the Remind app. I would have felt absolutely lost as a parent had it not been for his efforts.	4/30/2022 11:41 AM
3	Mrs Huntley is wonderful:)	4/29/2022 6:04 PM
4	A class newsletter would be extremely helpful. Helps parents prep for the week/month and be able to reinforce things at home.	4/29/2022 4:06 PM
5	Most recent kindergarten P/T conference was cancelled with no forewarning. Remind App only utilized by 1 of the middle school teachers and not at all by the kindergarten teacher.	4/28/2022 2:46 PM
6	For a first year teacher thrown in halfway, Mrs. Sparks is doing a tremendous job!	4/28/2022 9:20 AM
7	We love Ms. Martinez!	4/27/2022 9:13 PM
8	Kara Schubert is the BEST. Can we take her with us to 5th grade? She has high expectations for the scholars, has excellent classroom management, and clearly cares for her students.	4/27/2022 3:30 PM
9	Our son loves his teacher, and also loved the substitute he had for several days, Mr. V.	4/27/2022 1:09 PM
10	We asked for time to discuss our child's grade and progress. The teacher shared a 3 paragraph email on how busy she was to meet. We did not meet.	4/27/2022 11:04 AM
11	We have been overly pleased with the high level of communication and availability from Mrs. Huntley. Her organization and professionalism are admirable.	4/27/2022 10:16 AM
12	I feel like my 1st grade teacher was slow with parent communication and when I requested a phone call to discuss concerns she would only email.	4/26/2022 10:31 AM
13	We rarely see our 5th grader's work come home, the only way to see how he's doing is to look online but that doesn't show us what he's missing on tests, etc. Communications to the parents are often delayed.	4/25/2022 2:15 PM
14	Having several middle school teachers, some are excellent at responding to emails and a few who don't reply for days or at all.	4/25/2022 10:51 AM
15	Her communication was very lacking this year and the things I'd hear she stated to the classroom were no acceptable in my opinion. She would often not respond to emails where then I would have to text or ask her at pick up. When there was an issue with my child she	4/23/2022 8:31 AM

never mentioned anything to me and would not give me any details at all as to what he did. He was always a kind and sweet scholar from what she informed me. At all conferences and all communications there was never any negatives and I still have no idea what he did.

16	teacher communication has been fantastic.	4/22/2022 4:50 PM
17	I would love to receive a weekly email from the teacher to know more about what is going on in the classroom each week.	4/20/2022 10:25 PM
18	Both teachers communicate well regarding what is going on and respond quickly to any questions.	4/19/2022 7:07 PM
19	Love the Remind app - great for quick updates or announcements.	4/18/2022 2:40 PM
20	Never saw a Weekly Folder	4/18/2022 12:35 PM
21	We try to stay on top of thing and will always review anything coming from the teacher, the administration, Ms. Starla, or the school. The only real concern is the short time-frame by the time it is received and lack of clarity on some of the communications.	4/16/2022 3:47 PM
22	I was disappointed by the conferences.	4/16/2022 2:23 PM
23	We love getting the weekly folder for 1st grade. We also love the scholar hours. We appreciate all the teachers hard work!	4/16/2022 7:58 AM
24	Need more one on one and conference time available.	4/15/2022 9:55 PM
25	Scholar 1 is in MS, so little to no communication comes out unless it has something to do with a snow day. Stark contrast is our 4th grader's teacher - awesome on communication. Definitely feel a positive and fruitful working relationship. I will say that if there are big projects in the MS, we do occasionally get a general all hands type email from their teacher(s). That is nice because it does help us know what's going on occasionally. We do not like the "open house" approach to parent teacher conferences for MS - it takes a lot of time to try and meet with teachers and we often have to wait, so several hours have to be taken off work, which is challenging, unfortunately. We have yet to meet with all of the teachers, much less any of the elective teachers, which is a bummer.	4/14/2022 11:39 AM
26	It would be great if there was a consistent and regular (whole school) day of the week that "Friday folders" come home where parents know where to look for Communication from the teacher, and/or graded work or fliers.	4/14/2022 10:15 AM
27	Mrs. Bergmeier is an amazing teacher who truly cares for her scholars.	4/13/2022 10:19 PM
28	Scholar one had another teacher who was the opposite with communication and that was very difficult.	4/13/2022 7:41 PM
29	Was very disappointed in the MS conferences, that specific teachers were not there	4/13/2022 7:41 PM
30	Conferences seem like a waste of time. Since brooke gets good grades Ms. Hofmann doesn't seem to want to spend any additional time. We try to talk about getting her pushed to her ability but she doesn't have much interest. Basically brooke is doing fine and that's that.	4/13/2022 4:27 PM
31	Mrs. Bourgouin and Mrs. Wilson are excellent communicators, across the board! Mr. Estes communicates well in person, but not well in written communication.	4/13/2022 1:59 PM
32	Middle school correspondence is a bit lacking, especially from science and math. Also, would like to see weekly letters from elementary soanish	4/13/2022 1:45 PM

38	The communication we have received both years has been excellent!	4/13/2022 9:49 AM
39	I just wish we had one more parent teacher conference	4/13/2022 9:49 AM

40	We have really enjoyed having Ms Hofman she is both knowledgeable and helpful for our son. Also super sweet!!	4/13/2022 9:10 AM
41	3rd graders last teacher conference teacher made it a student led conference even though we had him bring a book to wait out of the classroom so we didn't get a chance to voice any concerns with teacher over bullying and homework that our son didn't need to hear us talking about.	4/13/2022 9:08 AM
42	The Remind app notifications are buggy. I dislike emails with unspecific subjects like "please read" without a hyphen and a real subject. I really don't like the 3rd grade weekly agenda sent as an attachment. I'd much prefer the text inline to the email.	4/13/2022 9:07 AM
43	Mrs. Huntley is amazing about communication	4/13/2022 8:41 AM

## Q25 What do you feel Lemman Academy does very well?

Answered: 183 Skipped: 121

#	RESPONSES	DATE
1	Leman provides a safe learning environment with very enriching subject matter.	5/5/2022 7:40 PM
2	Leman academy had amazing classroom environments that scholars feel accepted into.	5/4/2022 6:47 PM
3	Partnering with families, encouraging scholars, providing rich academic experiences	5/4/2022 11:33 AM
4	Communication, consistency in education/curriculum, approachable,	5/4/2022 9:12 AM
5	Fosters a love of learning and critical thinking. Grateful to be separate from the public school mess and to be focused on pure learning.	5/1/2022 8:18 PM
6	Staggered drop off and pick-up; quality teachers; handling growth in a timely manner - the middle school building has been amazing; They strive for stability and I feel that the staff genuinely cares for the academic growth and well being of the scholars; recognizing scholar achievement; I don't know Dr. Edwards personally, but I always appreciate the perspective in his emails and how well he communicates. Overall we are extremely grateful for Lemman Academy and if it did not exist we would probably opt to home school our children as we have done a little of in the past.	4/30/2022 12:03 PM
7	Set expectations and follows them. I never have to guess what is going on and I feel my child is looked after to ensure he is growing	4/29/2022 6:06 PM
8	I think that the staff we came in contact with are so passionate for educating our children, and for that I am extremely grateful. Lemman values our children and encourages them to be the best all around person they can be. I have an eager learner and he was encouraged and challenged all year I feel.	4/29/2022 4:14 PM
9	Caring and making things fun for the kids	4/29/2022 1:46 PM
10	Teachers are very engaged, approachable, and give suggestions on how to help my scholar.	4/29/2022 1:36 PM
11	-promoting a positive and encouraging environment -doing their best for every scholar - streamlining communication -hiring teachers who are competent and caring -creating memorable classroom experiences on a regular basis -celebrating successes -being relatable and demonstrating that we are all on the same page when it comes to what's best for our scholars -the music department for band and orchestra is STELLAR -seeing how enthusiastic my scholar's teachers are about teaching/learning is contagious - the PTO does an excellent job of being a positive presence and their fundraising efforts were incredible this past year - grateful to the SAC for all they do!	4/29/2022 9:42 AM
12	The general atmosphere of the school, there seems to be no bullying	4/28/2022 11:02 PM
13	Teaching basics and history	4/28/2022 5:38 PM
14	The high level of academics that are taught as well as the ethical values that are instilled in the children.	4/28/2022 2:48 PM
15	Fosters academic excellence Puts children first Strongly supports our awesome teachers Encourages parent involvement	4/28/2022 9:30 AM
16	Leman focuses on the kids and setting them up to be the best well rounded and well mannered kids (classical education and values). They keep the extremes being generated by society out of the school which is critical.	4/28/2022 9:16 AM
17	Caring for scholars, keeping safe and motivated to learn	4/28/2022 9:13 AM
18	Everything:)	4/28/2022 8:25 AM
19	They expect a lot of the kids but do so in a loving and encouraging way! Our daughter loves going to school. She truly enjoys every one of her teachers!	4/27/2022 9:16 PM

## 2021-2022 Parent/Guardian Survey: Lemman Academy Parker

20	Building Scholars	4/27/2022 8:27 PM
21	Leman Academy stays focused on the goal of making sure each scholar is gaining independence and accountability/responsibility for their own actions and choices.	4/27/2022 6:56 PM
22	I believe the teachers sincerely care about scholars and work very hard to teach them. I love how Dr. Edwards, Mrs. D'Arcy are always at the entrance to greet scholars, and fun to see which hat Dr. Edwards will wear at carpool. Lemman has a great system for carpool and it is very fast & efficient. Better than any other school we have attended.	4/27/2022 6:10 PM
23	I think what sets Lemman apart from other schools is how hard it pushes scholars academically. Excellent work in that regard.	4/27/2022 3:51 PM
24	Educating scholars without indoctrinating them. The caring culture is excellent. The teachers are very well qualified and care about their students.	4/27/2022 3:39 PM
25	The staggered drop-off and pick-up are well organized, fundraisers are easy, events are fun. There is a feeling of community in the school and the staff genuinely care about the students.	4/27/2022 1:18 PM
26	Security. I feel my child is safe at Lemmans. Administrative communication, the front desk ladies are great!	4/27/2022 11:05 AM
27	We really appreciate continued efforts by teachers to ensure scholars don't fall behind in their academic work. They take time before after school to provide additional educational opportunities.	4/27/2022 10:58 AM
28	Very well	4/27/2022 10:53 AM
29	Dr. Edwards	4/27/2022 10:33 AM
30	Letting the kids learn and grow in a social environment through engagement with each other and teachers.	4/27/2022 10:19 AM
31	Create a kind, supportive, happy and enthusiastic environment for the scholars to be inspired and encouraged to learn.	4/27/2022 10:17 AM
32	Educate and make learning fun.	4/27/2022 9:58 AM
33	Push our scholars to their educational limits and challenges them to be successful	4/27/2022 9:49 AM
34	Special activities	4/27/2022 9:48 AM
35	Leman Academy classic education provides the balance between academics and sports and extra curriculum activities. The course work designed is very good and extremely happy with the teachers and the staff.	4/27/2022 9:46 AM
36	Everything. We are completely happy with Lemman and wouldn't change anything.	4/27/2022 9:41 AM
37	I feel Lemman truly has my children's best interest at heart. It's not about their performance. It's about helping children develop the skills to be adults who have the tools necessary to take care of themselves and contribute to their community.	4/27/2022 9:06 AM
38	Academics	4/27/2022 9:05 AM
39	Teaches subjects really well and in a way scholars can understand. Challenges students.	4/27/2022 8:57 AM
40	Leman has improved every year that we are there. I believe that they provide a good classical model education and that the teachers are trying their best.	4/27/2022 8:52 AM
41	All the teachers and staff are excellent. The principle is excellent. They create a wonderful environment and challenge my children.	4/27/2022 8:49 AM
42	Science and math	4/27/2022 8:36 AM
43	They take pride in their school and therefore that passes down to the scholars and home to their families! I love the newsletter communication and esp love the personal communication through the remind app!! Thank you so much for building such a positive environment for our scholars! We appreciate you more than you know!	4/27/2022 8:28 AM
44	Advocates on behalf of the students and put their education first. I'm very happy the school stayed open during Covid as much as possible. I feel like my (now) 3rd grader is doing much better than his peers at other schools who were mostly remote.	4/27/2022 8:13 AM

## 2021-2022 Parent/Guardian Survey: Lemman Academy Parker

45	Safety of children.	4/27/2022 8:09 AM
46	The special Ed program is amazing!! My scholar had 164% growth since the beginning of the year. AMAZING!!	4/27/2022 8:06 AM
47	Leman seems to do a great job caring for the individual scholar. I am so pleased with how they have helped my daughters grow both academically and socially in the classroom. They are excelling at Leman!!	4/27/2022 8:04 AM
48	I think the parent, student and teach dynamic makes for a very productive education system.	4/27/2022 8:02 AM
49	Challenge students, encourage growth, and promote community	4/27/2022 7:59 AM
50	Interaction with our student.	4/27/2022 7:52 AM
51	Education and teaching respect.	4/27/2022 7:47 AM
52	I think there values and how they teach is amazing	4/26/2022 2:10 PM
53	Great teaching staff. Great principle	4/25/2022 5:29 PM
54	Teachers actually do the teaching (not showing videos or using iReady) and the classical curriculum is very relevant to real world life. Also I think they handle discipline well (esp compared to neighborhood schools where there are no consequences for any poor behavior) Love the focuses on virtues - respect, courage, etc. Love that Leman continues to keep technology out of the classroom. Teachers/admin have always been easy to reach and handled all questions/concerns professionally. Also they the admin is always visible and approachable to parents and scholars.	4/25/2022 10:58 AM
55	Leman does a great job in their approach to learning. my favorite thing about leman is that it is not a high technology school, but the scholars are involved and participating in their learning.	4/25/2022 8:43 AM
56	Excellent curriculum. Great communication. Great leadership.	4/25/2022 5:23 AM
57	They focus on the whole child, and they develop character as well as academics.	4/25/2022 4:55 AM
58	staff modeling and supporting values and virtues, high expectations for scholars academically and socially, caring environment, great communication and routines to help stay organized. Consistency among the grades so my children know the expectations year to year are the same. Teachers and staff who have grace and understand the importance of family.	4/24/2022 12:10 PM
59	I feel as though Lemman Academy has very good communication. I notice that the teachers are always willing to be available to the parents whether it be by email, phone or in person. I even notice that I will send an email late in the evening bc that is when I have time, not expecting a response, but surprisingly getting one. I also notice that some of the teachers are willing to learn my children as individuals and work to help them succeed based on how they learn.	4/23/2022 7:51 PM
60	Academics. Just amazing! And use of electronic communications- ie: Remind APP- so easy and effective. I love being able to easily check at all times what grades they have, what assignments are missing and what assignments are for each day.	4/23/2022 10:24 AM
61	The education he has in my opinion has been top notch. He has learned so much in the last two years.	4/23/2022 8:32 AM
62	See previous notes. /And thank you for this survey. Please know I am grateful for the good, right and beautiful at Lemman Academy.	4/23/2022 12:35 AM
63	pushes kids academically	4/22/2022 9:06 PM
64	Being organized.	4/22/2022 5:38 PM
65	They have a deep caring for scholars and provide and safe and effective learning environment. My kids are generally happy at school and all love their teachers. Relationships are quality and so is the teaching. Administration genuinely cares about the school.	4/22/2022 5:24 PM
66	We are so grateful to have found Lemman a few yrs ago. Our children are thriving, learning, are cared for and loved.	4/22/2022 5:20 PM
67	Educates	4/22/2022 3:08 PM
68	Really sticks to their virtues and values. Classical learning is so important and is taught very	4/22/2022 9:05 AM

100	Safety, curriculum	4/18/2022 12:22 PM
101	Prioritizing academics and appropriate behavior.	4/18/2022 12:19 PM
102	We love that Leman sticks to their curriculum and teaching methods. I also feel like they are great about considering and respecting parent input! They create a sense of pride for the scholars.	4/18/2022 12:01 PM
103	Cares about scholars and classical education	4/18/2022 11:48 AM
104	IEP support and plans	4/18/2022 11:45 AM
105	Reinforcing the value of a classical education; the instruction is full of excellent content that our scholar loves sharing with us every week. The Academy appears to be setting a high-bar for the scholars on a regular basis; recitations, expectations for conduct in school, etc. This is great to see, given that so much of the world around us is catering to the lowest common denominator or the bare minimum. I also appreciate the fact that security at the school appears to be single point of entry / access in the morning, and controlled access for departure in the afternoon. Such a simple and powerful concept that helps to keep our scholars safe - which so many 'regular' schools fail to implement. Thanks for being rigorous in this school safety discipline! I am thankful that our scholar is attending Leman Academy!	4/18/2022 11:41 AM
106	I love the recitation requirements. I love that the kiddos learn to public speak before they even know that it's anything to be fearful of. Great tools for the future.	4/18/2022 11:40 AM
107	The literature and English curriculum is so thorough and very well taught. Science is also on point! Mrs. Groves does a great job teaching and caring for the scholars.	4/18/2022 11:38 AM
108	They care for the students.	4/18/2022 11:27 AM
109	The communication with scholars and parents and teaching a great curriculum without getting political.	4/18/2022 11:27 AM
110	everything	4/18/2022 11:26 AM
111	I feel their curriculum is very challenging and keeps my kiddos engaged daily! I love that they are classically based and keep social activism out of the classroom. I love how caring the teachers are, they also keep my kids engaged and loving school!	4/18/2022 11:25 AM
112	The tour is very well done and provides the perception that the experience that the student should have would be that of excellence.	4/16/2022 3:52 PM
113	I like the values	4/16/2022 2:24 PM
114	Low homework scholar hours dress code	4/16/2022 8:00 AM
115	The staff seems to be truly invested in these scholars and upholds the values and pride of being a Royal.	4/16/2022 4:00 AM
116	Organization as a school is very good	4/15/2022 9:58 PM
117	I like the math and recitations. Those are building good skills that they will use in the future. My kids always enjoy their specials too.	4/15/2022 8:54 AM
118	Academics, Teachers and Staff professional and caring	4/15/2022 8:00 AM
119	They have a good curriculum.	4/15/2022 3:29 AM
120	We love that leman wants the scholars to be accountable for their own learning.	4/15/2022 3:09 AM
121	Leman Academy provides an excellent approach to classical education. This classical approach along with Dr. Leman's approach to education provide a sound foundation for scholars.	4/14/2022 8:48 PM
122	Very caring staff from the principal, assistant principal on down to the individual teachers. My kids feel loved.	4/14/2022 8:38 PM
123	Encouragement and promoting virtues.	4/14/2022 1:26 PM
124	Teaching a variety of things keeping my kids enjoying learning	4/14/2022 12:43 PM
125	We see more accountability with Leman than we ever have in any other school. We feel there	4/14/2022 11:56 AM

## 2021-2022 Parent/Guardian Survey: Lemman Academy Parker

is a goal to have a partnership with parents, but it just hasn't been realized yet, partly due to COVID - the infernal wrench. There is also a definite freedom of expression and faith that we value and are very thankful for. We also feel that parent's are valued and their input is more likely to be heard and actually listened too. Overall, Lemman seems to be more focused on full-bodied, classical-ish academics than politics and we are so thankful for that and hope it continues. We also very much appreciate Lemman recognizing kid's need to move throughout the day - recess is so important. The Revolutionary War re-enactment had great potential, but was a bit of a fiasco due to lack of organization and those older classes being out of control. We appreciate the activities the PTO sets up and were bummed to miss the dance due to COVID. We are thankful to partner with a charter school and will continue to come alongside the school as we are allowed. Thank you for allowing us to provide feedback.

126	Lemman has many excellent families who care about their kids' education. This contributes significantly to the quality of the school. We are confident that our kids are safe at Lemman from everything but COVID. We love that Lemman is low-tech. The classical education approach is logical and effective.	4/14/2022 10:43 AM
127	Overall, they shepherd our kids well, engage them in History and show a genuine care about the individual child. They teach them values that we appreciate, and they do their best to find great teachers and to always improve. I also appreciate that we as parents know what's being taught in the classrooms, and that History is taught based on historical facts, and not the teachers individual opinions, conjecture and biased.	4/14/2022 10:19 AM
128	Keeps politics out of school and keeps learning in school	4/14/2022 7:07 AM
129	Promoting a culture of values and virtues, creating well rounded students	4/13/2022 10:40 PM
130	Solid values, caring staff, rigorous academics	4/13/2022 10:21 PM
131	Teaching core values and inspiration to character building	4/13/2022 10:18 PM

133	- Helping/encouraging students that are struggling, while also challenging students that need it - Caring staff - Curriculum	4/13/2022 7:50 PM
134	I think they support and generally have wonderful teachers.	4/13/2022 7:42 PM
135	Focusing on academics and getting kids excited to learn.	4/13/2022 7:36 PM
136	Keeps the students engaged in learning	4/13/2022 7:03 PM
137	Love their values, discipline, and teaching philosophy	4/13/2022 5:06 PM
138	Lemman cares a great deal for their students and is always looking to better the school. I couldn't be any happier with the curriculum the students study.	4/13/2022 3:32 PM
139	Educating the scholars. My daughter has learned so much and loves to learn! She is excited to tell us about what she has learned at school!	4/13/2022 3:05 PM
140	Lemman does academics well. The scholars know the curriculum and preform at or above grade level.	4/13/2022 2:05 PM
141	Virtues and values, staff culture, admin culture, following classical framework	4/13/2022 2:04 PM
142	Lemman cares about the character of its students, and it shows in how scholars are taught, rewarded, and how the extra curricular activities are taught. There's a family feel to the school, and the sense that we're partnering together to raise individuals who will impact the next generation.	4/13/2022 2:04 PM
143	I feel that they do a very good job of keeping a good culture for the scholars, teachers and staff. The teachers do a great job of keeping parents informed of things in the classroom and are open to conversations to help the scholars whether it be socially, emotionally or academically.	4/13/2022 1:50 PM
144	They seem to have good/high expectations for the students academic performance. The pursue classical education.	4/13/2022 1:47 PM
145	Focus on character, values, and respect	4/13/2022 1:35 PM
146	Have a good community environment amongst scholars and parents. Having fun activities for	4/13/2022 1:28 PM

	the scholars to look forward to. Good learning environment!	
147	keeping the doors locked	4/13/2022 1:07 PM
148	I love the character training, the values and virtues and the recitations. I feel that most of the teachers care about my children and go out of their way to help them. Most of the academics are challenging, but not out of reach. I love the logic and in-depth part in middle school.	4/13/2022 1:02 PM
149	Classical education, support care	4/13/2022 12:19 PM
150	Being Friendly.	4/13/2022 11:50 AM
151	Creates a community that values the education of the whole child.	4/13/2022 11:39 AM
152	Provides a safe environment for kids to learn and make friendships.	4/13/2022 11:22 AM
153	Virtues and Values, instilling respect in the scholars, a strong historical curriculum	4/13/2022 11:17 AM
154	They managed covid learning the best out of any district school. My kids were able to keep up.	4/13/2022 11:07 AM
155	Connects all subjects together well - keeping most of them in a certain time period.	4/13/2022 10:53 AM
156	Strong emphasis on virtue and character. Great art instruction and projects. My kids love the history instruction.	4/13/2022 10:52 AM
157	Teaching values to the kids and I do feel that they focus on making sure the kids are not falling behind in subjects	4/13/2022 10:46 AM
158	curriculum, holding a standard, communication	4/13/2022 10:36 AM
159	Consistent leadership, safety, Royal Review, curriculum, focus on values, strong vision, and kindness of teachers. Thank you for staying true to the vision and not allowing the harmful agendas around us to impact these precious children.	4/13/2022 10:22 AM
160	Grade level teachers are excellent. Car line is always consistent/great.	4/13/2022 10:04 AM
161	Classical curriculum is the slam dunk, learning and studying history and applying it to current times is our main praise of the school. The public schools have derailed so far from the course exploring so many new topics, new trends, it's like the actual basis of learning and logic and critical thinking has disappeared. Lemman does a fantastic job of applying the classical curriculum structure to keep those main things at the front of the agenda.	4/13/2022 10:03 AM
162	Communication with parents, carline, leadership, virtues and values, technology (lack of)	4/13/2022 9:55 AM
163	I love the education model and what you use, as well as Saxon Math and Classical Education model.	4/13/2022 9:50 AM
164	Structure, expectations, education, scholar hours	4/13/2022 9:49 AM
165	Car line has been a big improvement, even though if I show up on time, I'm late and my scholars grade level is already done, leaving me to go to the front office. But if I show up 14-20 minutes earlier than scheduled pick up, I'm on time and it runs very smoothly.	4/13/2022 9:45 AM
166	Lemman academy has great communication, as well as standards for who they hire. We have never had an unresolved issue and enjoy having our children attend Lemman.	4/13/2022 9:43 AM
167	I feel the curriculum is what keeps us coming back.	4/13/2022 9:30 AM
168	Communication	4/13/2022 9:30 AM
169	Nourishment and putting child's education first.	4/13/2022 9:28 AM
170	Challenges and Cares for Scholars	4/13/2022 9:25 AM
171	Communicating and making the school feel more family based. You can tell each staff member cares for the scholars	4/13/2022 9:23 AM
172	Upholds and reinforces values and virtues. WHO you are is more important than the knowledge you know. And quite frankly, when that becomes more important, my kids are more eager to learn. Wow! How awesome?!? Lemman communicates excellently as a whole. Each teacher has their own method/style of communication that works best for them. Recess time is important and valued to get kids outside. High value on languages and arts. High value on recitations.	4/13/2022 9:22 AM

2021-2022 Parent/Guardian Survey: Lemman Academy Parker

173	Mrs Huntley does a very good job. I would love to hear more from the principal. Lunch room seems very crazy maybe more structure needed there.	4/13/2022 9:21 AM
174	So many things. For example, I cannot tell you how many people tell me "I wish my school had done that" when I tell them about recitations. I'm very thankful my scholars have been in school, learning in person, breathing oxygen at will, and living a normal life during all the craziness. God bless you all.	4/13/2022 9:18 AM
175	Provide a safe learning environment, ESS does a fabulous job of meeting the needs of scholars needing extra support	4/13/2022 9:16 AM
176	Kind, caring staff. Minimal technology used for teaching scholars.	4/13/2022 9:13 AM
177	Rich historical learning, explains assignments well, provides a fun learning environment for our son to feel happy and excited to learn.	4/13/2022 9:13 AM
178	Leman has the best teachers we've ever encountered. Every year I think we can't get a better teacher and we do!	4/13/2022 9:09 AM
179	Education/morals/values	4/13/2022 9:09 AM
180	Their academics	4/13/2022 9:04 AM
181	Teach and communicate!	4/13/2022 8:45 AM
182	Sticks with classical education and doesn't get caught up in social issues. Wish you were opening a high school..	4/13/2022 8:45 AM
183	We love the curriculum.	4/13/2022 8:38 AM

## Q26 Do you have any suggestions for areas of improvement for Lemman Academy?

#	RESPONSES	DATE
1	I just feel like the school has grown so fast that it feels like a vastly different experience than the first two years. The sense of community is almost non-existent and it genuinely feels like the school cares more about ratings and perspective families than the ones that are already there. I suppose that's normal growing pains, especially since it's happened so quickly. Hopefully things level out a bit, because this school and the administration truly had something unique and amazing to offer for the first couple of years...not just as an educational institution, but as a foundation for values, virtues and a sense of community that would help scholars grow emotionally as well as academically. Now it just kind of feels like American Academy #2 : (	5/5/2022 8:05 PM
2	We would LOVE a kitchen upgrade. The lunch that we order is often soggy, burned, cold, missing ingredients. We would like a better lunch option. Other schools are providing free lunch and it's a let down that Lemman cannot.	5/5/2022 7:40 PM
3	I think the homework times are too long. Educational research does not show benefits to this amount of homework in elementary school, and it really cuts into play time and family time between school and dinner/bed.	5/5/2022 2:16 PM
4	Lemman needs to make sure that their teachers care about the scholars outside the grade, and make it easier to cater to individual scholar needs	5/4/2022 6:47 PM
5	Order/discipline in the cafeterias is a bit out of control and overwhelming for volunteers who've never been in a school environment. Mrs. Nancy especially could use more help & support from Lemman employees. Parent volunteers are helpful and a good thing, but there should be a trained assistant/consistent helper in there each day who is firm & fair. She does so much but is often overlooked & unheard by the scholars when trying to restore order. We love Lemman, but respect to authority and order in large groups is lacking and at times appears to be largely unaddressed by those in charge (ie: teachers, support staff, leadership). There are of course exceptions to every thing stated above, and overall, we are happy with Lemman.	5/4/2022 11:33 AM
6	I would like more space at recess/playground and an improved lunch program. Also I'd like to see more consistency with uniforms; some children look very put together while others look very unkept.	5/4/2022 9:12 AM
7	Hot lunch - current vendor is too expensive and kids are not interested in options. They much preferred DCSD lunch program offerings at previous school. PE offered more often and more consistently. I know it is probably a pipe dream due to the size of the school, but it would be nice to have an opportunity for middle school scholars to take band or orchestra during the school day so they don't have to chose between sports and playing an instrument - both of which take place after school currently.	4/30/2022 12:03 PM
8	Wondering why there is not a school library. Also hope the fun days and activities that represent are not lost. For example, earth day, and read across America day ...are just a few that were not even mentioned this year by teachers. More hired supervisors during lunch and recess would feel a lot safer.	4/29/2022 9:01 PM
9	I do not	4/29/2022 6:06 PM
10	I would love to see the class sizes smaller; 27 Kindergartners for one teacher (with an aide occasionally) felt discouraging. I am unsure the "science" that is taught but would love to know more and see the school have abilities to provide a strong science program. Is there a possibility for a school library (or is this obsolete)? Would love to be more involved in classrooms and help our teachers more. Ms. Nancy could use a permanent [paid] helper in the lunchroom. It seemed like there wasn't always help and that is entirely too many kids for her to corral (maybe the new lunch program will help in this). Lastly, it felt like there was a lot of Netflix being utilized at school- which didn't always seem like a great utilization of screen time.	4/29/2022 4:14 PM

13	-the lack of a crossing guard on both sides of the school continues to be an accident waiting to happen. parents do not always heed safely around corners and many drop off in 'not allowed' places and yet are seemingly never penalized. PLEASE hire guards who will be visible each day and competent. Or start having specials teachers rotate through. It's scary out there! - Create more parking spots or ask teachers/staff to utilize southside spots -the lunch program is frustrating and expensive and many times my kids complain about the lunch and don't want to eat it or have trouble opening the plastic wrap. Can we look into the regular school lunches through DC? -as a parent of multiple scholars I would appreciate a loose calendar in august of how many projects will be due and when so I can know what's coming...May is wrapping up to be a doozy and I feel underprepared and overwhelmed -For those who struggle with remembering names, having the names of the front desk personnel posted on the window or wall in the foyer so when people walk up they KNOW who they're talking to -the sidewalk signs are rarely visible and should be checked daily as they blow over -hiring another grounds/maintenance employee would be beneficial since there two buildings now and so much landscaping alone to keep up with along with trash and just overall maintenance -this has been brought up before but filling in the gaps under the kindie playground fence with wood beams so wood chips are not able to blow all across the sidewalk -bring back the Royal Teacher's Fund to help pay our incredible teachers what they deserve!!	4/29/2022 9:42 AM

17	More communication about how they are avoiding the culture war happening in our society and school systems. I want to hear clearly that they are going to avoid teaching and providing curriculum about gender fluidity concepts and about CRT. I do not want these ideologies infused into my child's academic education and I want to be reassured by the administration and staff. In my opinion, These topics are best left to private discussions at home by the parents/guardians. Also, from a safety perspective, I haven't ever been told, do our classrooms have the safe lock mechanism to ensure no one gets in, in the event there was a school shooter?	4/28/2022 9:30 AM

21	I appreciate the dress code, and Lemman does a fairly good job with it. However, every day I see kids pushing the limits with their clothes, and wearing outfits that are not dress code. I also do not think there should be one teacher walking into classes checking the scholars dress code. I think the teachers should be responsible for their own class. I know difficult for a male teacher to deal with a girl wearing something inappropriate. I think best to pull the scholar aside and tell them that they need to go to the office to call mom or dad, to bring new clothes. etc. Lemman needs to remain consistent and not allow scholars to wear inappropriate dresses for resitations, stiletto high heels, Crocs, short shorts, and short skorts. Lemman should not allow nose rings, dyed hair, or long hair for boys...all things that have been allowed in 8th grade. Once you allow one scholar, middle schoolers notice, and they will do the same thing. Scholars having to call parents to bring them a change of clothes would actually be a deterrent to scholars breaking the dress code. I will admit the sweatshirt policy baffles me. I believe kids should be able to wear a sweatshirt with a hood or not. If scholars can wear a sweatshirt with a college name on it, I also believe it should be OK to have an American Flag on it, or a sports team. I wish the playground had more equipment for scholars to use...including swings! Thanks.	4/27/2022 6:10 PM
22	The fact that Lemman doesn't have a high school is its only drawback in my opinion. There are other charter schools in the area that do have high schools (Ascent Classical Academy, for	4/27/2022 3:51 PM

example). I love that Lemman will prepare my kids very well academically for high school, but I don't like that my kids will go to a different high school than many of their current classmates.

23	Lemman seems to tolerate a high level of bad behavior from scholars, including physical aggression. Students that continue to exhibit unsafe behaviors to their peers have no place in school-it makes other scholars feel unsafe, or that their safety is less of a priority than the problem student. Car line: this year has been the worst for carline, and it is becoming unsafe. Please staff the crosswalk in the am as well as the pm, parents drop their little ones in the parking lot and these kids just dart across without even looking-this is a tragedy that IS avoidable. Please also have additional staff that enforce car line rules, if parents aren't dropping kids off throughout the entire line (ie crawl the whole carline so they can drop their precious off at the door), please give them a warning and then excuse them from carline. Same for parents that GET OUT OF THEIR CARS at carline to open doors for kids-nope, go park and walk your kid up to the school. The entire carline process has become entirely too long, stressful, and the behaviors exhibited-and tolerated-by parents are not okay. It is sad that the scholars day begins and ends with this mess.	4/27/2022 3:39 PM
24	We don't agree with using recess as a currency. It has been an issue in previous years. We also think older kids (6th grade plus) would benefit from starting later in the morning instead of earlier.	4/27/2022 1:18 PM
25	Please hold teachers accountable. Esp. new teachers with no prior background in classroom teaching. We all must start somewhere but having an unapproachable defensive teacher is not helpful for scholar or parents. Our child specials plan is not being followed. Taking away breaks lunch/recess is NOT a productive form of discipline. It is actually a punishment for the teacher. Too much homework to the point where children are unhappy with learning. We were very happy with Lemman's until the start of this year. We are really hoping our feedback is taken with no animosity or negative repercussion. We strongly hope the next school year is better!	4/27/2022 11:05 AM
26	Pick up and drop off has become a nightmare over the last few years. Parents are utilizing the parking lot to stop and drop their kids off for the crosswalk. This creates a nightmare when other trying to park. It might be suggested, at the beginning of the year parents receive a contract of sorts which needs to be signed and returned to the office indicating they understand the rules of pick up and drop off. There also needs to be larger speed limit signs for the parking lot as parents had become very aggressive in their driving and speeds on the East end of the building. Parents need to set better examples.	4/27/2022 10:58 AM

37	Days off for Dibels testing are very frustrating. Living 40 min and having to come for a 10min test does not make sense not does having them off for the whole day. Just too many random days off throughout the school year. Would rather school start later in August. Especially Middle school. Do Not like how early middle school starts so early in August during the best weather of the summer. Also, homework can definitely be too much. They are in school for over 7hrs and the. Some of the older grades have over an hour of homework or more if they struggle to understand and get through it. Family time is also crucial and it is frustrating when	4/27/2022 8:57 AM

the whole evening helping 3 different kids with 3 different homeworks and we don't get any quality time together and everyone is tired and frustrated by the end.

38	-Improved homework guidelines and consideration of less homework esp in middle school. These kids are in school longer than most full time jobs and many have nightly activities. We are finding that the homework load is taking all of our child's free and rest time. There is a lot of research that suggests extensive homework is not beneficial. It should be practice work, not new learning. -The teachers esp middle school need more training in behavior, and a more fluid positive reinforcement model. We are finding that group punishment and yelling is the norm as teachers are more frustrated. -There have been significant concerns about safety of walkers after school. I have worked with the school throughout the year but this continues. I believe that it should be considered to stop walking as our school is not in a residential area. The kids are walking to meet their parents off site. It isn't safe unless there can be MUCH more staff support. I saw a child dodge a car this year, and did alert the school.	4/27/2022 8:52 AM

47	When you call to pick up a student for an appointment, instead of waiting for a parent to get there then call the child have them waiting at the office by said time. Having to wait 15 minutes every time to get a middle schooler is ridiculous.	4/27/2022 7:32 AM
48	Teachers should give feedback in a timely manner so parents can help to support them.	4/26/2022 2:10 PM
49	For me, I wish more communication would be done through remind app. Between office emails, teacher emails, royal review, infinite campus there are too many places to go for information.	4/25/2022 5:29 PM
50	Additional sports and club options would be nice. Lunch service has gotten expensive.	4/25/2022 10:58 AM
51	The school nurse is my only complaint. we've only had to deal with her on one occasion but she was not helpful or comforting to our daughter. Very unimpressed with her, would really like to see this improve so that if our daughter needs to go to the nurse she won't be intimidated by it.	4/25/2022 8:43 AM
52	It would be great to build a high school. ☺	4/25/2022 5:23 AM
53	The school calendar won't pull up off of the website when I use my phone. I have to be on my computer to access it.	4/25/2022 4:55 AM
54	Remembering that not every family who attends is a millionaire. This school is in a very affluent area and sometimes it feels we ought to provide financial support that our family cannot. Having multiply children and providing three times the field trip fees, supply fees, etc. is overwhelming. Perhaps be considerate to these families and only allow the essentials to be needed for supplies and restrict field trips to one per year.	4/24/2022 12:10 PM
55	I would like to suggest that students be consistently held accountable to the uniform policy. Maybe have a designated volunteer tasked to checking uniforms daily. Also having some repercussions in place for those who violate so that the rules will be taken seriously. For carpool line I suggest more boundaries on the sidewalk as kids tend to be a bit wild which is a huge safety issue near the cars. Maybe not letting the scholars go around the corner without supervision.	4/23/2022 7:51 PM
56	Just reminder emails as mentioned earlier in the survey as it pertains to restaurant nights, community service projects etc. I think we would have significantly better participation with	4/23/2022 10:24 AM

66	Less homework more after school activities	4/21/2022 3:49 PM
67	First, I would like to see more consistent and more frequent communication from teachers. Second, the class sizes are too big. 25 kindergarteners to 1 teacher a part time aid is not adequate for differentiated learning and makes classroom management extremely difficult. I can see how it would also wear out the teachers and they wouldn't be able to preform to the best of their abilities. The classes at Lemman should have less students per class or more Full Time teachers per room. Third, I also think Lemman should pay a full time aid to help Nancy in the lunch room every day.	4/20/2022 10:32 PM
68	Lemman needs to promote executive functioning lessons earlier in their academic careers.	4/20/2022 9:14 PM
69	Smaller class sizes for more individual attention	4/20/2022 1:43 PM
70	Continued improvements on pickup and having parents follow the rules. PLEASE improve your lunch program. It's much too expensive, hard to use last minute (well impossible to use last minute) and not food my children want to eat so we waste \$5 when we do purchase it. We have not purchased it all this year because of these factors, but as two working parents it would be nice to utilize the school lunch program were it more accessible and affordable.	4/19/2022 7:12 PM

concerned with the scholars that are causing problems and finding a solution to keep them from hassling, hurting, bullying or distracting other scholars. It is more important to me that my child is safe.

80	I would love to see parent involvement opportunities inside the classroom.	4/18/2022 2:17 PM
81	Please allow parents to return to awards ceremonies! I would like to see a better orientation/onboarding process for new families. Better utilization and explanation of how house systems work. Allow the PTO to organize for room moms - they can notify when teachers' birthdays are and facilitate communication between parents in the class - for parties, organizing group gifts, etc. Maybe have a school directory we can opt in to? There is currently no way to get in touch with other parents in the class.	4/18/2022 1:41 PM
82	1. Cut the bad habit of threatening disruptive scholars but doing nothing. (Just a tip to specific teachers who threaten as a means to create order..which doesn't work). Dr. Edwards isn't your only source... Time out in the hall works...ECT. 2. The pressure around cmas is coming from the teachers...my kids are so overwhelmed and they re-iterate everything you guys say. I know it's important and I'm on the schools side. Middle ground? 3. Pressure around sales and selling things for the school..again I'm on the schools side but "keeping up with the Joneses" is laid thick sometimes.	4/18/2022 1:35 PM

86	Work in ways to keep staff, better communication with middle school parents, teachers in middle school need to improve how they treat their students and how they communicate with them.	4/18/2022 12:22 PM
87	As the school has grown, we have noticed there has been an increase in disrespect and bullying type behavior amongst the scholars. When we first toured the school, we were blown away at the level of respect scholars had for their teachers, and loved the philosophy of partnering with parents if a scholar's behavior was inappropriate. We felt that our kids would be much safer both physically and emotionally at Lemman than the previous school. I think Lemman could take steps to remind current and future families that certain behaviors are not tolerated, and stick to their plan of correcting this behavior quickly, and in partnership with the parents. While we know the more strict style of school discipline is not for everyone, it was a big reason our family joined this school. We expect our children to be respectful and it's great when the school and other parents are on the same page.	4/18/2022 12:01 PM
88	The only issue is thw drop off and pick lines are a bit excessive and some parents don't drive safe. Maybe more defined in and out lanes seems as though some parents are still confused or just don't respect the process	4/18/2022 11:45 AM
89	No suggestion for improvement at this point; just a reminder for the Staff and Teachers to stay true to your mission, don't cave to the mob / the naysayers / or anyone that does not self-select into the Academy and align with the stated mission.	4/18/2022 11:41 AM
90	Math has been a struggle for the middle school due to a lot of teacher turnover. I feel like my scholar may not be prepared for high school because of this. In addition, there have been several instances of my scholar being hit or shoved at recess when no one is watching. There could be better supervision at recess.	4/18/2022 11:38 AM

Have student involvement in the development of activities and support them in advancing ideas, activities, and work that fits within the curriculum and the classical model.

99	Teacher needs more organization and hands on learning with students. and reading selections could use updates.	4/15/2022 9:58 PM
100	I do not like that taking away recess time seems to be the default consequence. If the kids can't focus, they need to use up some energy and try again. Also, often the whole class is punished if just a couple kids are acting out. Each kid should be responsible for their own actions.	4/15/2022 8:54 AM

103	I would love to see us switch to DCSD Nutrition Services. My School Kids lunch is too expensive and too cumbersome with the advance ordering and money lost for sick/snow days.	4/14/2022 8:38 PM
104	Be better at helping special needs. Maybe teachers need more training or knowledge of how to help. Listen when a child's behaviors are telling you they need help.	4/14/2022 12:43 PM
105	Be more welcoming to new families. There's a weird "we're founders" attitude that can be a little off setting. Make more of an effort to control students with discipline and enforcement in the MS. What our scholar has been exposed to regularly should not be acceptable ever. We did not expect to encounter the foul language use, disrespect for teachers and property that we have encountered. Teachers leaving mid-year is something the school cannot control, but it is pretty disruptive to learning anything. Hopefully that won't happen as frequently, but it is a bumner when it does. Provide a clear way for parent's to express concern over the social environment of the school or if there is an issue between a teacher/scholar - in other words, who do we contact if we're suffering issues with a hostile teacher or classmates.	4/14/2022 11:56 AM
106	We would love to see more perspectives and literature from people of color presented as part of the curriculum. We are still confused as to why Lemman was against the district's equity policy. We sincerely hope that every scholar feels accepted just as they are at Lemman.	4/14/2022 10:43 AM

118	There are some improvements that could be made at the middle school level. Being a newer and smaller school, I do understand some of the limitations in extracurricular activities and electives offered, but there could be some improvement in this area. The school also has to be cognizant of dress code for girls in particular, especially as they age. I agree with the dress code, however there does seem to be a lack of consistency and the language used speaking to scholars about their dress also needs to be more respectful.	4/13/2022 3:32 PM

121	Mental health resources are very much needed especially after the 2020/2021 school year. The social emotional health of our scholars is just as important as the academics. I would love to have full time counselor support for all grades at the school. I'd love for the House System to continue to support a mentoring approach for older scholars to younger scholars. Every scholar should feel supported and cared for emotionally as well as academically. Training for all teachers in regards to how to help special needs students in their classroom. Resources for parents on what to do if their child might have a learning disability - who to contact, how to get tested, how to request an IEP/504.	4/13/2022 2:05 PM

125	Much more classroom discipline is needed. Teacher should be enabled to teach and other students enabled to learn without significant distractions from students who are repeatedly disruptive and disrespectful. The lack of discipline impacts the culture of the school and holds students back. Teachers should also have experience teaching prior to teaching at Lemman.	4/13/2022 1:47 PM
126	No, keep leading from the front!	4/13/2022 1:35 PM
127	I would love to see discipline more consistent across the board if things go wrong, and then communication right away with parents about it, even in middle school. Often we don't even know about it unless our scholar tells us, which might not always happen. I would love to see middle school tighten up (a lot) on cursive handwriting, dress code and locking phones up. There seems to be MANY problems at lunch recesses.	4/13/2022 1:02 PM

129	Perhaps, work on improving communication when problems arise rather than wait to put together the perfect response. It's better parents/guardians hear what's happening FIRST than from their children at the end of the school day/week. Please alert parents to changes BEFORE the hear-say and gossip ensue creating even more widespread of mis-information! Also, please encourage teachers to respond back to parents when e-mailed. It's a shame I never heard back from the Music Teacher despite e-mailing twice and a week ahead of conferences. It doesn't leave me wanting to return to Lemman Academy when communication is lacking!	4/13/2022 11:50 AM

133	The homework can be intense and detracts from the otherwise great school and learning that goes on. Kids just need a break sometimes to decrease anxiety and focus on other things at home.	4/13/2022 11:07 AM

134	My student isn't always allowed to ask questions in his ELA Class. This particular teacher also doesn't show much care/concern for him or his confusion/questions. Also, it would be nice if Lemman had the same free lunch program as other Douglas County schools. I would also like to see dress code taken more seriously when it comes to the length of girls shorts/skirts/dresses.	4/13/2022 10:53 AM
135	My 4th and 6th grader do not like music class. I would love for them to have a strong music teacher with concerts for family to attend. :)	4/13/2022 10:52 AM

139	The homework is a little excessive for our family and more then expected. We appreciate that the school values family and does not give homework on the weekends but I still feel that during the week it should be 30minutes or less. They work so hard all day and are learning so much it's important for them to have LOTS of play time for their development.	4/13/2022 9:55 AM
140	I wish we were able to meet with our teachers more and that their was less homework. It is alot	4/13/2022 9:50 AM
141	More technology so our kids aren't technologically behind, interest clubs, Spanish	4/13/2022 9:49 AM
142	Helping intertwine life skills more into daily life and lessons. More monitoring during recess so bullying is less of an occurrence. Taking the children more seriously when they come to an adult for any safety related and/or bullying issues. More after school programs/clubs.	4/13/2022 9:45 AM
143	I understand that with being k-8 schedules are tough, however, I do not like how early my 2nd grader's lunch hour is.	4/13/2022 9:43 AM
144	I want to see more training for teachers in dealing with kids who are struggling behaviorally and some kind of encouragement for the kids to make and find friends.	4/13/2022 9:30 AM
145	We feel that Lemman has progressively strayed from a school centered on relationship. We would love to support the claim of "world class teachers" but this is just not true. The qualifications of the staff hired in the last few years is very questionable, which we have observed through the level of instruction our scholars have received. More disturbing than academics is the inability of many staff members to form a meaningful relationship with their students. This is most evident by observing how Ms. Dinsmoor relates to students. She is easy to spot following students around, ready to pounce on any mistake they make, which clearly makes students avoid her at all costs. She keeps to herself during student drop off, not interested or capable of engaging students. While this behavior may not be true of all staff, it is concerning how Ms. Dinsmoor was chosen for her position and remains active. Is this type of character what Lemman supports? Students will respect and best learn from teachers only if a good example is set for them. When staff is observed not adhering to the same dress code guidelines as students and not being punctual, how can your students be expected to comply? We enrolled our children at Lemman with the hopes of being challenged in a way not possible in the public schools. Unfortunately, this has not been our experience and we regret that Lemman is no longer practicing what they preach.	4/13/2022 9:30 AM
146	Hot lunch program could be improved on quality and selection. Salad/fruit bar would be nice addition	4/13/2022 9:28 AM
147	Build a High School so our kiddos can continue to grow beyond 8th grade and not have to go to a private school to stay out of the current public schools.	4/13/2022 9:25 AM
148	Drop off and pick up... more so pick up as I'm always nervous driving up with the kiddos waiting for the parents, as they like to "dink" and have fun with friends. I do love how the teachers are there in the morning to greet the children as they walk in.	4/13/2022 9:23 AM
149	I think it's important that the teachers in one grade level have more uniformity. For example, my 4th grader has had almost 0 homework this year. But another friend in a different class has had hours of homework almost every night. I wish there was a better balance there for all scholars. PE teacher for my son in 2nd grade doesn't seem to value physical education but rather spends more time on discipline. Seems that there is a disconnect there. (His class had the same problem when he was in kindergarten, and that teacher is no longer there.) I do wish that at the beginning of the school year there would be more teachers/staff helping with the car pool. It seemed to take much longer for folks to figure this out this year. (I know the population	4/13/2022 9:22 AM

grew a lot, but we seemed to still be struggling for quite some time.) specifically with this, teachers are not dismissing students according to the original times sent out at the beginning of the year. For example, my children are supposed to be picked up at 3:15. When I got in the car pool line at 3:15, I ended up not being able to pick up my children because middle school was let out 10 minutes early and so our kids were sent to transition. I know get in the car pool line at 3:00 and have no issues. It's just frustrating because there was no communication about these time changes. We just had to "figure it out."

150	I didn't realize until a week ago that Infinite Campus has an app. I was frustrated that the website didn't have a push notification option, but they do work with the app. I was realizing after the quarter ended that my scholar had missing assignments that she thought she'd turned in and the teacher hadn't notified me about. I'm hoping more regular notifications from IC will help me keep track of missing and low grade assignments. Neither of my scholars have a weekly folder of graded assignments, so I see graded work randomly. Tracking grades is probably my biggest weakness/gap. Hopefully the app notifications will help.	4/13/2022 9:18 AM
151	Better parent communication from staff	4/13/2022 9:16 AM
152	Better playground equipment for kids	4/13/2022 9:13 AM
153	Yes, there needs to be a bullying policy, we have been dealing with aggressive bullying from a boy in our class and he has repeatedly done it to other students as well. Seems odd that he is still aloud to attend the school given his mean nature and pure disregard for others feelings, screaming, hitting, threatening needs to be dealt with asap. I've witnessed him take his anger out on innocent kids for no reason. It's sad.	4/13/2022 9:13 AM
154	The nurses office. The staff in there are very rude, disrespectful, condescending, and I wish all three were replaced. My daughter is terrified to go to the nurse now and refuses no matter how sick she is or how hurt. They've spoken rudely to me personally and to many other families I've spoken to about this. I have addressed with dr edwards and the nurses themselves but nothing has changed. It has made us consider leaving Leman, to be honest, but we're hoping for a change.	4/13/2022 9:09 AM
155	No more "grams" type fundraisers. During these weeks my scholar hates school. She feels excluded and it's stressful to wonder if she's getting any from peers and is hurtful when she doesn't. Back up lunch. We have mistakenly read the calendar and forgot to send lunch with our scholar thinking she had hot lunch or she has left lunch in the backseat of the car. There should be an allotment of emergency lunches or some other option if this happens versus the scholar going without until a parent can make it. Mistakes happen and it is surprising to me that Leman doesn't have any better solutions to this.	4/13/2022 9:09 AM
156	More attention and action plans for bullying situations	4/13/2022 9:09 AM
157	They are very strong on instilling value and virtues into the kids- they need to make sure they follow same values and virtues and make sure scholars are.. do more positive reinforcement then just punishing, have more grace in kids when they forget things	4/13/2022 9:04 AM
158	Since I am considering homeschooling and putting my child in your homeschool enrichment, I would like the homeschoolers to participate in the specials the same way the other scholars do at school. Please consider allowing the enrichment kids to go to specials.	4/13/2022 8:49 AM
159	Not at this time.	4/13/2022 8:45 AM
160	When there are disciplinary issues, address them with the people/person at fault and don't punish the whole class.	4/13/2022 8:45 AM
161	There is a significant amount of bullying that goes on, especially at recess and in the hallways of middle school.	4/13/2022 8:38 AM
